Draft NUREG--2224, “Dry Storage and Transportation of High Burnup Spent Nuclear Fuel,” is available in ADAMS under Accession No. ML18214A132.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information. If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

Historically, the potential for changes in the cladding performance of HBU SNF to compromise the analyzed fuel configuration in transportation packages and dry storage systems has been addressed through safety review guidance (Interim Staff Guidance on Hydride Reorientation, Accession No. ML17292B057) on the mechanical performance of HBU SNF following hydride reorientation; and per the conclusions of that assessment, presents example approaches for licensing and certification of HBU SNF for transportation (under part 71 of title 10 of the Code of Federal Regulations, 10 CFR, Packaging and Transportation of Radioactive Material) and dry storage (under 10 CFR part 72, Licensing Requirements for the Independent Storage of Spent Nuclear Fuel and High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste). The staff will review and consider public comments received on draft NUREG--2224 as it finalizes the guidance. The NRC is particularly seeking public comment on the following:

1. Are NRC’s assumptions regarding the performance of other cladding alloys based on data obtained from HBU SNF with Zircalloy-4 cladding for evaluating design basis drop accidents reasonable? If not, please explain why not.
2. Are the described licensing and certification approaches easy to follow and practical? If not, please explain why not.
3. Is the proposed approach for evaluation of vibration normally incident to transport clear? If not, please explain why not.
4. Are the discussions on consequence analyses due to hypothetical fuel reconfiguration clear and meaningful? If not, please explain why not.
5. Are there any potential conflicts between NUREG--2215, Standard Review Plan for Spent Fuel Dry Storage Systems and Facilities, Draft for Comment (ADAMS Accession No. ML17310A693) and this document? If so, please describe any conflicts.
6. Is the NRC’s reassessment of the ductility transition temperature as measured by ring compression testing of defueled HBU SNF specimens reasonable? If not, please explain why not.

In answering the questions, please fully explain your answers. In addition, comments are invited on any areas of the draft report.

III. Public Meeting

The NRC will conduct a public meeting for the purpose of describing the draft NUREG and answering questions from the public. The NRC will publish a notice of the location, time, and agenda of the meeting on the NRC’s public meeting website at least 10 calendar days before the meeting. Stakeholders should monitor the NRC’s public meeting website for information about the public meeting at: http://www.nrc.gov/public-involve/public-meetings/index.cfm.

Dated at Rockville, Maryland, this 3rd day of August 2018.

For the Nuclear Regulatory Commission.

Michael C. Layton,
Director, Division of Spent Fuel Management, Office of Nuclear Material Safety and Safeguards.

[PR Doc. 2018–16994 Filed 8–8–18; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 040–08903; NRC–2018–0154]

Homestake Mining Company of California; Grants Reclamation Project; Groundwater Monitoring Plan

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received an application from the Homestake Mining Company of California (the licensee), for amendment of Materials License No. SUA–1471, which authorizes the possession of residual uranium and byproduct material in the form of uranium waste tailings and other byproduct waste generated by the licensee’s past milling operations at the licensee’s uranium mill located in Cibola County, New Mexico. The amendment would update the groundwater monitoring plan to adjust the compliance monitoring for the groundwater restoration areas at the Grants Reclamation Project site. This change to the groundwater monitoring plan should ensure that coverage is...
provided for all of the restoration areas at the site.

**DATES:** A request for a hearing or petition for leave to intervene must be filed by October 9, 2018.

**ADDRESSES:** Please refer to Docket ID NRC–2018–0154 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

**FOR FURTHER INFORMATION CONTACT:** section of this document.

- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference call at 1–800–397–4209, 301–415–4410, or by email to pdr.resource@nrc.gov. The ADAMS access number for each document referenced (if it is available in ADAMS) is provided for the first time that it is mentioned in this document.

- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

The NRC has received, by letter dated November 20, 2017 (ADAMS Accession No. ML18117A218), an application to amend Materials License No. SUA–1471 for the licensee’s uranium mill located in Cibola County, New Mexico. In this application the licensee proposes to update the groundwater monitoring plan to adjust the compliance monitoring for the groundwater restoration areas at the Grants Reclamation Project (Grants) site. This update to the groundwater monitoring plan includes adding wells to those listed in License Condition 35A that will be monitored on specific frequencies as listed in the application. The amendment includes the location and aquifer termination for each well and details the constituents that will be monitored. The monitoring wells will be used to demonstrate groundwater restoration at the Grants site relative to the site standards listed in License Condition 35B. Three groundwater restoration areas have been defined for the site: The on-site area, and the north and south off-site areas. The wells proposed to be added to the groundwater restoration program have already been installed and are currently being sampled. Additionally, some wells will no longer be monitored in instances where access is restricted by current property owners.

An NRC administrative completeness review found the application acceptable for a technical review (ADAMS Accession No. ML18117A218). Prior to approving the updated license, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the NRC’s regulations. The NRC’s findings will be documented in a safety evaluation report, and the staff will conduct an environmental review pursuant to section 51.21 of title 10 of the Code of Federal Regulations (10 CFR).

**II. Opportunity To Request a Hearing and Petition for Leave To Intervene**

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s website at http://www.nrc.gov/reading-rm/doc-collections/er/. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1–F21, 11555 Rockville Pike (First Floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d), the petition should specifically explain the reasons why intervention should be permitted, with reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner’s right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures.

Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(ii) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document.

A State, local governmental body, Federally-recognized Indian Tribe, or agency thereof, may petition to the Commission to participate as a party under 10 CFR 2.309(h)(1). The petition...
should state the nature and extent of the petitioner’s interest in the proceeding. The petition should be submitted to the Commission no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document, and should meet the requirements for petitions set forth in this section. Alternatively, a State, local governmental body, Federally-recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a hearing is granted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the opportunity to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.

III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing and petition for leave to intervene (petition), any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities that request to participate under 10 CFR 2.315(c), must be filed in accordance with the NRC’s E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Detailed guidance on making electronic submissions may be found in the Guidance for Electronic Submissions to the NRC and on the NRC website at http://www.nrc.gov/site-help/e-submittals.html. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket. Information about applying for a digital ID certificate is available on the NRC’s public website at http://www.nrc.gov/site-help/e-submittals/getting-started.html. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC’s public website at http://www.nrc.gov/site-help/e-sub-ref-mat.html. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed so that they can obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC’s adjudicatory E-Filing system may seek assistance by contacting the NRC’s Electronic Filing Help Desk through the “Contact Us” link located on the NRC’s public website at http://www.nrc.gov/site-help/e-submittals.html, by email to MSHD_Resource@nrc.gov, or by a toll-free call at 1–866–672–7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing adjudicatory documents in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC’s electronic hearing docket which is available to the public at https://adams.nrc.gov/ehd, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click cancel when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in order to demonstrate proximity to a facility or site. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would
PENSION BENEFIT GUARANTY CORPORATION

Submission of Information Collection for OMB Review; Comment Request; Locating and Paying Participants

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of request for extension of OMB approval.

SUMMARY: The Pension Benefit Guaranty Corporation (PBGC) is requesting that the Office of Management and Budget (OMB) extend approval, with modifications, to a collection of information under the Paperwork Reduction Act. The purpose of the information collection is to enable PBGC to pay benefits to participants and beneficiaries. This notice informs the public of PBGC’s request and solicits public comment on the collection.

DATES: Comments must be submitted by September 10, 2018.

ADDRESSES: Comments should be sent to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Pension Benefit Guaranty Corporation, via electronic mail at OIRA_DOCKET@omb.eop.gov or by fax to (202) 395–6974.

A copy of the request will be posted on PBGC’s website at https://www.pbgc.gov/prac/laws-and-regulations/information-collections-under-omb-review. It may also be obtained without charge by writing to the Disclosure Division of the Office of the General Counsel, 1200 K Street NW, Washington, DC 20005–4026, faxing a request to 202–326–4042, or calling 202–326–4040 during normal business hours (TTY users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4040). The Disclosure Division will email, fax, or mail the information to you, as you request.

FOR FURTHER INFORMATION CONTACT: Stephanie Cibinic (cibinic.stephanie@pbgc.gov), Deputy Assistant General Counsel, Regulatory Affairs Division, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street NW, Washington, DC 20005–4026, 202 326–4400, extension 6352. TTY users may call the Federal relay service toll-free at 800–877–8339 and ask to be connected to 202–326–4400.

SUPPLEMENTARY INFORMATION: This information collection is needed to pay participants and beneficiaries who may be entitled to pension benefits from plans that have terminated. It consists of information participants and beneficiaries are asked to provide in connection with an application for benefits. In addition, in some instances, PBGC requests individuals to provide identifying information so that it may determine whether the individuals may be entitled to benefits. All requested information is needed so that PBGC may determine benefit entitlements and make appropriate payments.

This information collection includes My Pension Benefit Account (MyPBA), an application on PBGC’s website, http://www.pbgc.gov, through which plan participants and beneficiaries may conduct electronic transactions with PBGC, including applying for pension benefits, designating a beneficiary, electing monthly payments, electing to withhold income tax from periodic payments, changing contact information, and applying for electronic direct deposit.

PBGC is proposing to revise one form in this collection, the Power of Attorney Form (Form 715). The proposed revision would include:

- Features previously unavailable—granting a durable power of attorney (DPOA) in addition to a nondurable power of attorney (NDPOA), and allowing a principal to name up to three agents to act on her behalf with PBGC (and to designate whether the agents have independent or joint authority), whereas the current form only has room for one agent to be named;
- Features that would protect the principal—heightened requirements for granting authority and for executing the document (i.e., the principal’s signature must be witnessed and notarized, and witnesses must meet certain criteria); and
- A “Notice to the Principal,” to alert the principal about what powers she is granting to a designated agent, and an “Agent’s Acknowledgement” to inform the agent about her duties and liabilities with respect to handling the principal’s affairs.

PBGC believes these revisions provide greater flexibility and greater protections against fraud for customers using the Form 715. Customers are not required to use this form and can use other DPOAs or NDPOAs that comply with applicable state laws.

The existing collection of information was approved under OMB control number 1212–0055 (expires March 31, 2019). On May 16, 2018, PBGC published in the Federal Register (at 83 FR 22715) a notice informing the public of its intent to request an extension of this collection of information, as modified. No comments were received. PBGC is requesting that OMB extend approval of the collection (with modifications to the Form 715) for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive 175,397 benefit applications and information forms annually. The total annual burden associated with this collection of information is estimated to be 108,440 hours (approximately one hour for benefit applications and 30 minutes for information forms) and an estimated $56,711, which is the total average maximum cost of notary services for spousal consents on benefit applications and for the Form 715. PBGC estimates that 710 out of the 175,397 applications and forms submitted annually are Form 715, and that the total annual burden to complete the Form 715 would be approximately 355 hours and $2,485.

Issued in Washington, DC.

Stephanie Cibinic, Deputy Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
