Abstract: The Safe Drinking Water Act (SDWA) Amendments of 1996 (Pub. L. 104–182) authorized the creation of the Drinking Water State Revolving Fund (DWSRF; the Fund) program in each state and Puerto Rico, to assist public water systems in financing the costs of infrastructure needed to achieve or maintain compliance with the SDWA requirements and to protect public health. The SDWA, section 1452, authorizes the Administrator of the EPA to award capitalization grants to the states and Puerto Rico which, in turn, provide low-cost loans and other types of assistance to eligible drinking water systems. States can also reserve a portion of their grants to conduct various set-aside activities. The information collection activities will occur primarily at the program level through the (1) Capitalization Grant Application and Agreement/State Intended Use Plan; (2) Biennial Report; (3) Annual Audit; (4) Assistance Application Review; and (5) DWSRF National Information Management System and the Projects and Benefits Reporting System.

(1) Capitalization Grant Application and Agreement/State Intended Use Plan: The state must prepare a Capitalization Grant Application that includes an Intended Use Plan (IUP), outlining in detail how it will use all the funds covered by the capitalization grant. The state may, as an alternative, develop the IUP in a two-part process, with one part identifying the distribution and uses of the funds among the various set-asides in the DWSRF program and the other part dealing with project assistance from the Fund.

(2) Biennial Report: The state must agree to complete and submit a Biennial Report on the uses of the capitalization grant. The scope of the report must cover assistance provided by the Fund and all other set-aside activities included under the Capital Grant Agreement. States that jointly administer DWSRF and Clean Water State Revolving Fund (CWSRF)
