

complications, or inability to manage diabetes; also, any involvement in an accident or any other adverse event in a CMV or personal vehicle, whether or not it is related to an episode of hypoglycemia; (3) each driver must provide a copy of the ophthalmologist's or optometrist's report to the Medical Examiner at the time of the annual medical examination; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keeping a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based upon its evaluation of the 53 exemption applications, FMCSA exempts the following drivers from the diabetes requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above:

Gary M. Athanas (OR)
 Gary R. Babcock (CT)
 Jennifer L. Baker (NC)
 Lesley L. Beasley (AL)
 Theresa J. Blackman (IN)
 Jeffrey D. Boutin (GA)
 Douglas P. Chretien (LA)
 Eugene V. Cost (ND)
 James R. Crump (VA)
 James G. Cucinotta (ME)
 Bryan S. Davis (VA)
 Jeremy C. Durand (NY)
 Connie S. Erwin (TN)
 Brendan T. Farnam (MA)
 Randall S. Feldt (IA)
 Travis E. Forrest (PA)
 Robert R. Frost (PA)
 Alexander A. Hegyi (NJ)
 Sergio Hernandez (IL)
 Scotty A. Hill (NC)
 Billie Hinton (NY)
 Arild Johansen (ND)
 Kaleb N. Jones (IL)
 Reginald Jones (NC)
 Kevin R. Kerrigan (MI)
 William R. Koepplin (ND)
 Jeff F. Kress (MN)
 Eric J. Kuster (IA)
 Michael P. Labrosse (NY)
 Michael J. Mason (GA)
 Chad W. Moore (MO)
 Walter N. Morphew, Jr. (IN)
 Edward C. Mulvenna, Jr. (NJ)

Jeffrey C. Olson (SD)
 Robin L. Phillips (PA)
 Roosevelt Price (MS)
 William P. Raben (AL)
 Dennis B. Segel (WA)
 Daniel A. Slattery (IN)
 Mathew C. Smart (TX)
 Jeffrey J. Smith (VA)
 Charles D. Smith, Jr. (IN)
 Patrick J. Snell (IA)
 Rodney M. Stephens (PA)
 Robert A. Swasey, Jr. (ME)
 Kevin R. Terpstra (IL)
 Richard D. Thompson (NY)
 William D. Thull (IL)
 Billy J. Thurnall (IN)
 John T. Tuck, Jr. (NJ)
 Roy D. Wendte (IL)
 Bailey Westgate (ID)
 Walter L. Williams (AR)

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for two years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Issued on: August 9, 2018.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2018-0202]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption; request for comments.

SUMMARY: FMCSA announces receipt of applications from 39 individuals for an exemption from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with insulin-treated diabetes mellitus (ITDM) operating a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate CMVs in interstate commerce.

DATES: Comments must be received on or before September 14, 2018.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA-2018-0202 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- *Hand Delivery:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal Holidays.

- *Fax:* 1-202-493-2251.

Instructions: Each submission must include the Agency name and the docket number(s) for this notice. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below for further information.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day e.t., 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments online.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you have questions

regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The 39 individuals listed in this notice have requested an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding diabetes found in 49 CFR 391.41(b)(3) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control. The Agency established the current requirement for diabetes in 1970 because several risk studies indicated that drivers with diabetes had a higher rate of crash involvement than the general population.

FMCSA established its diabetes exemption program, based on the Agency’s July 2000 study entitled “A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century.” The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 52441), **Federal Register** notice in conjunction with the November 8, 2005 (70 FR 67777), **Federal Register** notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

FMCSA notes that section 4129 of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users requires the Secretary to revise its diabetes exemption program established on September 3, 2003 (68 FR 52441). The revision must provide for individual assessment of drivers with

diabetes mellitus, and be consistent with the criteria described in section 4018 of the Transportation Equity Act for the 21st Century (49 U.S.C. 31305). Section 4129 requires: (1) Elimination of the requirement for three years of experience operating CMVs while being treated with insulin; and (2) establishment of a specified minimum period of insulin use to demonstrate stable control of diabetes before being allowed to operate a CMV.

In response to section 4129, FMCSA made immediate revisions to the diabetes exemption program established by the September 3, 2003 notice. FMCSA discontinued use of the three-year driving experience and fulfilled the requirements of section 4129 while continuing to ensure that operation of CMVs by drivers with ITDM will achieve the requisite level of safety required of all exemptions granted under 49 U.S.C. 31136 (e). Section 4129(d) also directed FMCSA to ensure that drivers of CMVs with ITDM are not held to a higher standard than other drivers, with the exception of limited operating, monitoring and medical requirements that are deemed medically necessary. The FMCSA concluded that all of the operating, monitoring and medical requirements set out in the September 3, 2003, notice, except as modified, were in compliance with section 4129(d). Therefore, all of the requirements set out in the September 3, 2003, notice, except as modified by the notice in the **Federal Register** on November 8, 2005 (70 FR 67777), remain in effect.

II. Qualifications of Applicants

Jeffrey L. Barton

Mr. Barton, 53, has had ITDM since 2015. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Barton understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Barton meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Kansas.

Michael J. Beattie

Mr. Beattie, 60, has had ITDM since 2018. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Beattie understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Beattie meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Tennessee.

Timothy W. Beeny

Mr. Beeny, 56, has had ITDM since 2018. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Beeny understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Beeny meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Kentucky.

Joseph A. Bradley

Mr. Bradley, 54, has had ITDM since 2015. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Bradley understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Bradley meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy.

He holds an operator's license from Indiana.

Harold B. Bryan

Mr. Bryan, 25, has had ITDM since 2016. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Bryan understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Bryan meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Idaho.

Javis B. Cruz

Mr. Cruz, 31, has had ITDM since 2018. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Cruz understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Cruz meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from New Mexico.

Matthew A. Cunningham

Mr. Cunningham, 57, has had ITDM since 2016. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Cunningham understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Cunningham meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His

optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from New York.

Victor J. Da-Chao

Mr. Da-Chao, 61, has had ITDM since 2009. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Da-Chao understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Da-Chao meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Maryland.

Timothy S. Danley

Mr. Danley, 50, has had ITDM since 2014. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Danley understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Danley meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Texas.

Richard G. Dattler, Jr.

Mr. Dattler, 51, has had ITDM since 2015. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Dattler understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV

safely. Mr. Dattler meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Oregon.

Ellen M. Diggs

Ms. Diggs, 51, has had ITDM since 1994. Her endocrinologist examined her in 2018 and certified that she has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. Her endocrinologist certifies that Ms. Diggs understands diabetes management and monitoring, has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Diggs meets the requirements of the vision standard at 49 CFR 391.41(b)(10). Her ophthalmologist examined her in 2018 and certified that she does not have diabetic retinopathy. She holds an operator's license from Kansas.

Marven J. Finken

Mr. Finken, 53, has had ITDM since 2017. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Finken understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Finken meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Minnesota.

Randie S. Fisher, Jr.

Mr. Fisher, 22, has had ITDM since 2008. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Fisher understands

diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Fisher meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Missouri.

Jason J. Fleisch

Mr. Fleisch, 43, has had ITDM since 2017. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Fleisch understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Fleisch meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Pennsylvania.

Ryan M. Galusha

Mr. Galusha, 29, has had ITDM since 2011. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Galusha understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Galusha meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from New York.

Raymond M. Hamlin

Mr. Hamlin, 75, has had ITDM since 2011. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or

more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Hamlin understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hamlin meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Maine.

Steven L. Hare, Jr.

Mr. Hare, 26, has had ITDM since 1997. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Hare understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hare meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from North Carolina.

Joshua R. Hedges

Mr. Hedges, 28, has had ITDM since 2011. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Hedges understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hedges meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Missouri.

Vicky L. Hill

Ms. Hill, 63, has had ITDM since 2010. Her endocrinologist examined her in 2018 and certified that she has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another

person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. Her endocrinologist certifies that Ms. Hill understands diabetes management and monitoring, has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Hill meets the requirements of the vision standard at 49 CFR 391.41(b)(10). Her ophthalmologist examined her in 2018 and certified that she has stable nonproliferative diabetic retinopathy. She holds an operator's license from Washington.

Charles O. Hudson

Mr. Hudson, 59, has had ITDM since 2010. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Hudson understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hudson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Tennessee.

James A. Keebaugh

Mr. Keebaugh, 57, has had ITDM since 2011. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Keebaugh understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Keebaugh meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class B CDL from Pennsylvania.

Rein R. Kori

Mr. Kori, 22, has had ITDM since 2008. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Kori understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Kori meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Tennessee.

Thomas C. McGee

Mr. McGee, 35, has had ITDM since 2011. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. McGee understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. McGee meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from South Carolina.

Anton Means

Mr. Means, 58, has had ITDM since 2018. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Means understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Means meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy.

He holds an operator's license from Illinois.

Andrew P. Metzke

Mr. Metzke, 25, has had ITDM since 2006. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Metzke understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Metzke meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from South Carolina.

Christopher J. Misner

Mr. Misner, 42, has had ITDM since 1987. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Misner understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Misner meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Michigan.

Mohamed S. Mohamed

Mr. Mohamed, 46, has had ITDM since 2018. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Mohamed understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Mohamed meets the

requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Massachusetts.

Eugene G. Mueller

Mr. Mueller, 72, has had ITDM since 1959. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Mueller understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Mueller meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable proliferative diabetic retinopathy. He holds an operator's license from Wisconsin.

Reginald J. Pokorny

Mr. Pokorny, 41, has had ITDM since 2016. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Pokorny understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Pokorny meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Nebraska.

Vernon C. Read

Mr. Read, 56, has had ITDM since 1985. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Read understands diabetes management and monitoring,

has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Read meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable nonproliferative diabetic retinopathy. He holds an operator's license from California.

John W. Rosenthal

Mr. Rosenthal, 75, has had ITDM since 2014. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Rosenthal understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Rosenthal meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Idaho.

Steve A. Santamaria

Mr. Santamaria, 40, has had ITDM since 2007. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Santamaria understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Santamaria meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Illinois.

Ricky J. Sawyer

Mr. Sawyer, 33, has had ITDM since 1987. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or

more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Sawyer understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Sawyer meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable proliferative diabetic retinopathy. He holds an operator's license from Alaska.

Justin G. Simpson

Mr. Simpson, 31, has had ITDM since 1999. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Simpson understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Simpson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds an operator's license from Ohio.

Jacob H. Turner

Mr. Turner, 24, has had ITDM since 2004. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Turner understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Turner meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Arkansas.

Chad E. Vanscoy

Mr. Vanscoy, 47, has had ITDM since 2012. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function

that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Vanscoy understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Vanscoy meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Ohio.

Phillip M. Woods

Mr. Woods, 59, has had ITDM since 2016. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Woods understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Woods meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from Michigan.

Robert W. Youdath

Mr. Youdath, 34, has had ITDM since 1992. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Youdath understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Youdath meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Ohio.

Brian D. Zoll

Mr. Zoll, 53, has had ITDM since 2017. His endocrinologist examined him in 2018 and certified that he has had no severe hypoglycemic reactions resulting

in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the last five years. His endocrinologist certifies that Mr. Zoll understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Zoll meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2018 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Ohio.

III. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the notice.

IV. Submitting Comments

You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA–2018–0202 and click the search button. When the new screen appears, click on the blue “Comment Now!” button on the right hand side of the page. On the new page, enter information required including the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

We will consider all comments and materials received during the comment period. FMCSA may issue a final determination at any time after the close of the comment period.

V. Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble,

go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA–2018–0202 and click “Search.” Next, click “Open Docket Folder” and you will find all documents and comments related to this notice.

Issued on: August 9, 2018.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2018–0013]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 11 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. They are unable to meet the vision requirement in one eye for various reasons. The exemptions enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

DATES: The exemptions were applicable on July 19, 2018. The exemptions expire on July 19, 2020.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

I. Electronic Access

You may see all the comments online through the Federal Document Management System (FDMS) at <http://www.regulations.gov>.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> and/or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and

5 p.m., e.t., Monday through Friday, except Federal holidays.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

II. Background

On June 18, 2018, FMCSA published a notice announcing receipt of applications from 11 individuals requesting an exemption from vision requirement in 49 CFR 391.41(b)(10) and requested comments from the public (83 FR 28335). The public comment period ended on July 18, 2018, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(10).

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of a least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the vision standard in 49 CFR 391.41(b)(10) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows applicants to operate CMVs in interstate commerce.

The Agency’s decision regarding these exemption applications is based on medical reports about the applicants’ vision as well as their driving records and experience driving with the vision deficiency. The qualifications,
