

the implementation of the activities described in the HCP (proposed action), including the consequences of the no-action alternative, the construction of the parking lot with no conservation measures alternative, and the proposed action. The proposed action also includes issuance of the ITP and implementation of the HCP as submitted by the applicant. The applicant anticipates that the proposed action would result in the loss of approximately 0.89 acres of occupied Alabama beach mouse habitat within the 1.40-acre footprint of the project.

Habitat Conservation Plan

The HCP covered area consists of 4.14 acres of land owned by the applicant. The HCP includes measures to avoid, minimize, and mitigate impacts to the Alabama beach mouse from construction of the parking lot. To minimize impacts to the covered species and its habitat, the applicant reduced the footprint of the parking lot. Other avoidance, minimization, and mitigation measures include, but are not limited to, trapping and relocating the species, dune enhancement and restoration, installation of sand fencing, and creation of a dune enhancement fund. The dune enhancement fund would be used to enhance habitat elsewhere within the city limits of Gulf Shores where Alabama beach mice may be found.

Public Comments

If you wish to comment on the permit application, HCP, or EA, you may submit comments by any one of the methods listed in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may request in your comment that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Next Steps

We will evaluate the HCP, EA, and your comments to determine whether the ITP application meets the permit issuance requirements of section 10(a) of the ESA. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA. If the requirements for permit issuance are met, we will issue ITP number TE84363C-0 to the applicant for incidental take of the Alabama beach mouse.

Authority

We provide this notice under section 10 of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the ESA's regulations, the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Notice of Termination of the Livestock Grazing Monument Management Plan Amendment and Environmental Impact Statement, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Termination.

SUMMARY: The preparation of an Environmental Impact Statement (EIS) associated with the Livestock Grazing Monument Management Plan Amendment for the Grand Staircase Escalante National Monument (GSENM) is superseded by a Monument Plan

Revision and therefore is no longer required. The process is hereby terminated.

DATES: Termination of the EIS process for a Livestock Grazing Monument Management Plan Amendment takes effect immediately.

FOR FURTHER INFORMATION CONTACT: Matt Betenson, Associate Monument Manager, telephone (435) 644-1200; address: 669 S Hwy 89A, Kanab, UT 84741; email: mbeternso@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500-1508), the Bureau of Land Management (BLM) announced its intent to prepare an EIS. The Notice of Intent was published in the **Federal Register** on November 4, 2013. The Plan Amendment would have considered modifying land use decisions associated with livestock grazing within the GSENM and portions of the Kanab Field Office, Arizona Strip Field Office, as well as lands managed by the National Park Service in the Glen Canyon National Recreation Area where GSENM administers grazing.

In 2013, the BLM determined that planning level decisions associated with livestock grazing may need to be modified and initiated a Plan Amendment effort. On December 4, 2017, Presidential Proclamation 9682 modified the boundaries of the GSENM. As a result of the boundary modification, the BLM has initiated a full Resource Management Plan (RMP) revision for the BLM-administered lands that were previously part of this analysis. The RMP revision will include consideration of livestock grazing in its planning-level decisions. The NOI for the RMP Revision was published on January 16, 2018.

The amendment for livestock grazing is no longer necessary and the BLM hereby terminates preparation of the Livestock Grazing Monument Management Plan Amendment and associated EIS.

Authority: 40 CFR 1506.6, 40 CFR 1506.10.

Edwin L. Roberson,
State Director.
