Habitat Conservation Plan for the Interior Least Tern and Application To Renew Incidental Take Permit; Gibson County, Indiana

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of permit application; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on an application to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (ESA) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. The ESA requires that we invite public comment before issuing these permits.

DATES: We must receive any written comments on or before September 17, 2018.

ADDRESSES:

Submitting Comments: Send written comments by U.S. Mail to the Regional Director, Attn: Phil Delphey, U.S. Fish and Wildlife Service, Ecological Services, 5600 American Blvd. West, Suite 990, Bloomington, MN 55437–1458; or via email to permitsR3ES@fws.gov. Specify that your comments pertain to TE016724.

Obtaining Documents: For information on obtaining documents for review, see Public Comments.

FOR FURTHER INFORMATION CONTACT: Phil Delphey, 612–713–5318.

SUPPLEMENTARY INFORMATION:

Introduction

Section 9 of the ESA and our implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17 prohibit the “take” of fish or wildlife species listed as endangered or threatened. Take of listed fish or wildlife is defined under the ESA as “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532(19)). However, under limited circumstances, we issue permits to authorize incidental take, i.e., take that is incidental to, and not the purpose of, the carrying out of an otherwise lawful activity.

We invite public comment on permit renewal application TE016724, for certain activities with endangered species authorized by section

10(a)(2)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and our regulations governing the taking of endangered species in the Code of Federal Regulations (CFR) at 50 CFR 17. Submit your written data, comments, or request for a copy of the complete application and Habitat Conservation Plan (HCP) to either address shown in **ADDRESSES**.

Background

In 1986, a single pair of endangered Interior least terns (*Sterna antillarum*) nested at Cinergy Corporation's (Cinergy) Gibson Generating Station in Gibson County, Indiana. Since that time, the least tern colony at the facility has grown. During the 1990s, Cinergy worked cooperatively with the Indiana Department of Natural Resources (IDNR) and the Service to maintain favorable conditions for successful tern production at the Gibson Generating Station. Between 1986 and 1999, the largest number of terns recorded in a single year (1998) included an estimated 85 adult terns, 63 nests, and 72 fledged young. In the late 1990s, Cinergy worked cooperatively with the IDNR and the Service to develop a Habitat Conservation Plan (HCP) regarding continued operation of the facility, and, in late 1999, the Service issued an Incidental Take Permit (ITP) to Cinergy. In 2005, the ITP was renewed. Management of the facility under the HCP has promoted the continued growth of the tern colony. In 2010, an estimated 150 adults, 110 nests, and 165 fledged young were recorded. In addition to the growth in numbers, the tern colony has expanded to areas beyond the original location along a splitter dike adjacent to a cooling pond. Nesting has now been documented on the splitter dike, adjacent to ash ponds, a coal combustion waste landfill, construction areas, and station access roads. The expansion of the tern nesting area presents management challenges for the generating station and associated facilities.

Applicant's Proposal

Duke Power Company purchased and merged with Cinergy Corp. to form Duke Energy Corporation (Duke) in 2006. Duke has continued to operate the facility in accordance with the HCP and the ITP. Duke has applied to the Service for renewal of its ITP number TE016724. An HCP accompanies this renewal application. The HCP describes management activities in and around the Gibson Generating Station, including water management, predator control, and minimization of human disturbance due to recreational use.

Proactive management over the past 25 years has resulted in an increase in the Interior least tern population nesting at Gibson Generating Station and surrounding areas. However, no incidental take of least terns has occurred during that time. Actions that may result in take include human disturbance during management and operations, including foot traffic, vehicle or construction equipment, ash placement, waste disposal, and harassment due to the presence of people and equipment.

Duke proposes to continue to manage its property to protect least terns. In addition, Duke has committed to monitor the result of its activities and the effect on the population of least terns at Gibson Generating Station and the surrounding state and Federal lands.

Public Comments

We seek public review and comments on this permit application. Please refer to permit number TE016724 when you submit comments. Receipt of Application Incidental Take Permit; Draft Low-Effect Habitat Conservation Plan for the Morro Shoulderband Snail; Phillips Single-Family Residence, Community of Los Osos, San Luis Obispo County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from Richard Phillips for an incidental take permit under the Endangered Species Act of 1973, as amended. The permit would authorize take of the federally endangered Morro shoulderband snail that would occur incidental to otherwise lawful activities associated with the construction and maintenance of a single-family residence and associated uses addressed in the draft low-effect habitat conservation plan prepared for the project. We invite public comment. **DATES:** Written comments should be received on or before September 17, 2018.

ADDRESSES: *To obtain documents:* You may download a copy of the draft habitat conservation plan and draft low-effect screening form and environmental action statement at <http://www.fws.gov/ventura/>, or you may request copies of the documents by sending U.S. mail to our Ventura office, or by phone (see **FOR FURTHER INFORMATION CONTACT**).

To submit written comments: Please send us your written comments using one of the following methods:

- *U.S. mail:* Send your comments to: Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S.
