SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Notification Requirements for Coal and Wood Burning Appliances.

OMB Number: 3041–0040.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of coal and wood burning appliances.

Estimated Number of Respondents: An estimated five submissions annually.

Estimated Time per Response: Three hours per submission and 30 minutes for collecting and mailing the information to the CPSC.

Total Estimated Annual Burden: 17.5 hours (5 submissions × 3.5 hours).

Total Estimated Annual Cost to Respondents: \$1,212, based on an average total hourly employee compensation rate of \$69.23 for management, professional, and related occupations (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations in private goods-producing industries, March 2018) (17.5 hours × \$69.23).

General Description of Collection: 16 CFR part 1406, Coal and Wood Burning Appliances—Notification of Performance and Technical Data requires that manufacturers and importers provide consumers with written notification regarding certain technical and performance information related to safety on each coal and wood burning appliance. Manufacturers are also required to provide to the CPSC a copy of the notification to consumers and an explanation of all clearance distances contained in the notification. For existing models, all known manufacturers have complied with the requirements. Accordingly, there is no new burden associated with the requirements of 16 CFR part 1406, except in cases where existing models are changed, or new models are introduced. Less than five submissions are estimated annually from new stove models coming into the market, or new firms entering the market.
