Abstract: GreenChill is a voluntary partnership program sponsored by the U.S. Environmental Protection Agency (EPA) that encourages supermarket companies to adopt cost effective technologies and practices that reduce refrigerant emissions and improve operational efficiency. The GreenChill Program works with the supermarket industry to lower barriers inhibiting the implementation of technologies and practices that reduce refrigerant emissions. The Program effectively promotes the adoption of emission reduction practices and technologies by engaging GreenChill partners to set an annual refrigerant emission reduction goal and develop a refrigerant management plan reflecting the company's implementation objectives.
