The State asserts that this river system was navigable at the time of Alaska Statehood. As such, the State contends that ownership of the lands underlying this river system automatically passed from the United States to the State in 1959 at the time of Statehood under the Equal Footing Doctrine; the Submerged Lands Act of 1953; the Alaska Statehood Act of 1959; and other title navigability law. Section 315 of FLPLMA authorizes the BLM to issue an RDI when it determines that a record interest of the United States in lands has terminated by law or is otherwise invalid, and a disclaimer will help remove a cloud on title to such lands.

The State’s application is for an RDI for all submerged lands underlying the portion of the Fortymile River System described below. Specifically, these are all submerged lands between the ordinary high water marks of the left and right banks of the Fortymile River, beginning sixty feet upstream of the international border with Canada, upstream to the confluence of the North and South Forks of the Fortymile River within section 10, township 8 south, range 30 east, Fairbanks Meridian, Alaska; all submerged lands between the ordinary high water marks of the left and right banks of the South Fork of the Fortymile River beginning at the confluence with the North Fork of the Fortymile River upstream to the confluence of the Mosquito and Dennison Forks of the Fortymile River within section 8, township 26 north, range 18 east, Fairbanks Meridian, Alaska; and all submerged lands between the ordinary high water marks of the left and right banks of the North Fork of the Fortymile River, beginning at its confluence with the South Fork of the Fortymile River, upstream to the dead-end slough which is a remnant of the Knik in section 20, township 6 south, range 29 east, Fairbanks Meridian, Alaska. The State listed the main stem of the Fortymile River’s coverage on the USGS 1:63,360 series topographic map Eagle A–2 (1956), Eagle B–1 (1956) and Eagle B–2 (1956); for the North Fork of the Fortymile River, Eagle A–2 (1956), Eagle B–2 (1956) and Eagle B–3 (1956); and the South Fork of the Fortymile River is shown on the Eagle A–2 (1956) quadrangle.

Over time, the precise location of the submerged lands described above may vary between townships due to the ambulatory nature of these water bodies. Any RDI is a legal document through which the BLM disclaims the United States’ interest in, or ownership of, specified lands, but the disclaimer does not grant, convey, transfer, or rene

Drawn Stainless Steel Sinks From China; Determination

On the basis of the record developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing and antidumping duty orders on drawn stainless steel sinks from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted these reviews on March 1, 2018 (83 FR 8887) and determined on June 4, 2018 that it would conduct expedited reviews (83 FR 30193, June 27, 2018).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on August 14, 2018. The views of the Commission are contained in USITC Publication 4810 (August 2018), entitled Drawn Stainless Steel Sinks from China: Investigation Nos. 701–TA–489 and 731–TA–1201 (Review).

By order of the Commission.

Lisa Barton, Secretary to the Commission.
