

Respondents/affected entities: Manufacturers of engines, equipment and vehicles in the nonroad compression ignition (CI), marine CI, locomotives and medium- and heavy-duty on-highway industries; Marine CI vessel owners and operators and owners of HD truck fleets.

Respondent's obligation to respond: Regulated manufacturers must respond to this collection if they wish to sell their products in the US, as prescribed by Section 206(a) of the CAA (42 U.S.C. 7521). Participation in some programs such as ABT and TPEM is voluntary, but once a manufacturer has elected to participate, it must submit the required information.

Estimated number of respondents: 468 (total).

Frequency of response: Quarterly, Annually, On Occasion.

Total estimated burden: 127,900 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$21,639,590 (per year), which includes an estimated \$11,682,548 annualized capital or maintenance and operational costs.

Changes in the Estimates: There is a net decrease of 73,137 hours in the total estimated burden. This decrease is due to: (1) A decrease in TPEM respondents; (2) respondents' reliance on carry-over testing data; and 3) eliminating duplication.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Polymeric Coating of Supporting Substrates Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Polymeric Coating of Supporting Substrates Facilities (EPA ICR No. 1284.11, OMB Control No. 2060-0181), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is

currently approved through August 31, 2018. Public comments were previously requested, via the **Federal Register**, on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 20, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0043, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for Polymeric Coating of Supporting Substrates Facilities (40 CFR part 60, subpart VVV) apply to each existing and new coating operation and any on-site coating mix preparation equipment used

to prepare coatings for the polymeric coating of supporting substrates. New facilities include those that commenced construction, modification, or reconstruction after the date of proposal. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 60, subpart VVV.

Form Numbers: None.

Respondents/affected entities: Polymeric coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart VVV).

Estimated number of respondents: 62 (total).

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 14,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,190,000 (per year), which includes \$700,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a small adjustment increase in the total estimated burden and capital and O&M costs as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in the burden and cost estimates occurred due to an increase in the respondent universe.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Emission Guidelines for Sewage Sludge Incinerators (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR),

Emission Guidelines for Sewage Sludge Incinerators (EPA ICR No. 2403.04, OMB Control No. 2060-0661), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through August 31, 2018. Public comments were previously requested, via the **Federal Register** on June 29, 2017, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 20, 2018.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed either online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's

public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The Emission Guidelines for Sewage Sludge Incinerators (SSI) for Sewage Sludge Incinerators (40 CFR part 60, subpart M) apply to the administrators of air quality programs in a state or U.S. protectorate with one or more SSI units that commenced construction either on or before the date of proposal. States may choose to incorporate the model rule text directly in their state plan. If a State does not develop, adopt, and submit an approvable State plan, the EPA must develop a Federal plan to implement the emission guidelines. These regulations do not directly apply to SSI unit owners and operators. However, SSI unit owners and operators must comply with the state plan to implement the emission guidelines contained in this Subpart. These standards only affect existing units constructed on or before October 14, 2010; therefore, no new units will become subject to these same standards. This information is being collected to assure compliance with 40 CFR part 60, subpart M.

In general, all emission guidelines require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to emission guidelines.

Form Numbers: None.

Respondents/affected entities: Sewage sludge incinerators constructed on or before October 14, 2010.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart M).

Estimated number of respondents: 86 (total).

Frequency of response: Initially, semiannually and annually.

Total estimated burden: 32,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,790,000 (per year), which includes \$1,350,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the labor hours and costs as compared to the previously-approved ICR. The increase is not due to any program changes. The increase in labor burden and costs occurred for two reasons: (1) This ICR

assumes all respondents will have to familiarize with the regulatory requirements each year; and (2) this ICR fixes an error in the previous ICR, which did not include recordkeeping burden for operating parameters. However, there is also an adjustment decrease in the total capital and O&M costs and number of responses as compared to the previous ICR. The decrease occurred for two reasons: (1) The total number of SSI units has decreased since the previous ICR; and (2) this ICR assumes that all facilities will meet the requirements for testing every three years rather than annual testing.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0874]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning:

Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to
