

Part 51, provided that (i) there is no significant hazards consideration; (ii) there is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite; (iii) there is no significant increase in individual or cumulative public or occupational radiation exposure; (iv) there is no significant construction impact; (v) there is no significant increase in the potential for or consequences from radiological accidents; and (vi) the requirements from which an exemption is sought are among those identified in 10 CFR 51.22(c)(25)(vi).

The Director, Division of Decommissioning, Uranium Recovery, and Waste Programs, has determined that approval of the exemption request involves no significant hazards consideration because allowing the licensee to have an exemption of up to 3 months from certain schedule requirements of 10 CFR part 73, Appendix B, "General Criteria for Security Personnel," for VY does not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The exemption from certain schedule requirements of 10 CFR part 73, Appendix B, Section VI.A.7 is unrelated to any operational restriction. Accordingly, there is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite; and no significant increase in individual or cumulative public or occupational radiation exposure. The exempted regulation is not associated with construction, so there is no significant construction impact. The exempted regulation does not concern the source term (i.e., potential amount of radiation in an accident), nor mitigation. Thus, there is no significant increase in the potential for or consequences from radiological accidents. The requirements from which the exemption is sought fall within categories identified in 10 CFR 51.22(c)(25)(vi), specifically scheduling requirements, as well as education, weapons training, training exercises, qualification, requalification or other employment suitability requirements.

Therefore, pursuant to 10 CFR 51.22(b) and 51.22(c)(25), no environmental impact statement or environmental assessment need be prepared in connection with the approval of this exemption request.

5.0 CONCLUSION FOR 10 CFR PART 73, APPENDIX B, SECTION VI.A.7 SCHEDULE EXEMPTION REQUEST

The NRC staff has reviewed the licensee's submittals and concludes that the licensee has justified its request for an extension of certain 10 CFR part 73, Appendix B, Section VI.A.7 security training schedules to November 7, 2018.

Accordingly, the NRC has determined that pursuant to 10 CFR 73.5, "Specific exemptions," an exemption from certain 10 CFR part 73, Appendix B, Section VI.A.7 security training schedule requirements is authorized by law and will not endanger life or property or the common defense and security, and is otherwise in the public interest. The NRC hereby grants the requested exemption.

The NRC staff has determined that efficiencies will be gained if the NRC-approved ISFSI-only PSP is implemented within 90 days of the completion of removal of spent fuel from the VY spent fuel pool. The NRC has concluded that approving the licensee's exemption request is in the best interest of protecting the public health and safety through the efficiencies gained by not having to perform the currently scheduled annual security training shortly before the removal of spent fuel from the spent fuel pool and placement in the ISFSI, which would make the scheduled training moot.

This exemption expires on November 7, 2018. By that time, the licensee is required to have implemented its ISFSI-only PSP, or be in full compliance with the security training schedule requirements of 10 CFR part 73, Appendix B, Section VI.A.7.

Pursuant to 10 CFR 51.22(c)(25), NRC has determined that granting of an exemption from the requirements of 10 CFR part 73, Appendix B, Section VI.A.7 falls within a categorical exclusion to the environmental review requirements of Part 51.

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 31st day of July 2018.

OFFICE OF PERSONNEL MANAGEMENT

Federal Prevailing Rate Advisory Committee; Open Committee Meetings

AGENCY: Office of Personnel Management.

ACTION: Notice of Federal Prevailing Rate Advisory Committee Meeting Dates in 2018.

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Thursday, September 20, 2018

Thursday, October 18, 2018

Thursday, November 15, 2018

Thursday, December 20, 2018

The meetings will start at 10 a.m. and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW, Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chair, five representatives from labor unions holding exclusive bargaining rights for Federal prevailing rate employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management.

These scheduled meetings are open to the public with both labor and management representatives attending. During the meetings either the labor members or the management members may caucus separately to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of a meeting.

Annually, the Chair compiles a report of pay issues discussed and concluded recommendations. These reports are

available to the public. Reports for calendar years 2008 to 2016 are posted at www.opm.gov/FPRAC. Previous reports are also available, upon written request to the Committee.

The public is invited to submit material in writing to the Chair on Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on these meetings may be obtained by contacting the Committee at the Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 5H27, 1900 E Street NW, Washington, DC 20415, (202) 606-2858.

Office of Personnel Management.
