

Two non-federally recognized groups, the Dunlap Band of Mono Indians and Traditional Choinumni Tribe, were consulted. One non-federally recognized group, the Wukchumni Tribe, was invited to consult, but did not participate. Hereafter, all tribes listed in this section are referred to as "The Consulted and Notified Tribes."

History and Description of the Remains

In the early 1990s, human remains representing, at minimum, one individual were removed from site CA-MAD-1785, in Madera County, CA. The human remains represent one adult of indeterminate sex, represented by four fragments. No known individuals were identified. The 12 associated funerary objects are: one lot of steatite sherds, six lots of steatite beads, and five lots of shell beads.

In the early 1990s, human remains representing, at minimum, one individual were removed from site CA-MAD-1788, in Madera County, CA. The human remains represent one sub-adult of indeterminate sex, represented by 14 fragments. No known individuals were identified. The five associated funerary objects are: one lot of shell fragments, one glass bead, one steatite bead, and two shell beads.

Fresno City College instructor Don Wren excavated both sites for the Deer Creek and Fine Gold Creek Projects. In January 2017, an osteological examination of the faunal collections was conducted to determine if human remains were present. That examination resulted in the identification of the human remains described in this inventory.

Determinations Made by the State Center Community College District—Fresno City College

Officials of the State Center Community College District—Fresno City College have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of two individuals of Native American ancestry based on archaeological context.
- Pursuant to 25 U.S.C. 3001(3)(A), the 17 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and both the Northfork Rancheria of Mono Indians of California and the Picayune Rancheria of Chukchansi

Indians of California, based on geographic information and oral tradition.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Dr. Margaret Mericle, Fresno City College of The State Center Community College District, 1101 East University Avenue, Fresno, CA 93741, telephone (559) 442-8210, email peg.mericle@fresnocitycollege.edu, by September 24, 2018. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Northfork Rancheria of Mono Indians of California and the Picayune Rancheria of Chukchansi Indians of California may proceed.

The State Center Community College District—Fresno City College is responsible for notifying The Consulted and Notified Tribes that this notice has been published.

Consultation

A detailed assessment of the human remains was made by staff at Indiana University-Purdue University Fort Wayne (IPFW) in consultation with the Peoria Tribe of Indians of Oklahoma, as requested by the Federal Highway Administration (FHWA). Additional consultation was conducted by FHWA and the Indiana Department of Transportation Environmental Services, Cultural Resources Office (INDOT-CRO) with representatives of the Delaware Nation, Oklahoma; Kickapoo Tribe of Indians of the Kickapoo Reservation in Kansas; Miami Tribe of Oklahoma; Ottawa Tribe of Oklahoma; Peoria Tribe of Indians of Oklahoma; and the Shawnee Tribe.

Following transfer of the human remains to the ISMHS, additional invitations to consult were sent by letter from the ISMHS to the Absentee-Shawnee Tribe of Indians of Oklahoma; Citizen Potawatomi Nation, Oklahoma; Eastern Shawnee Tribe of Oklahoma; Forest County Potawatomi Community, Wisconsin; Ho-Chunk Nation of Wisconsin; Nottawaseppi Huron Band of the Potawatomi, Michigan (previously listed as the Huron Potawatomi, Inc.); Pokagon Band of Potawatomi Indians, Michigan and Indiana; and the Winnebago Tribe of Nebraska.

History and Description of the Remains

On July 7, 2010, human remains representing, at minimum, one individual were removed from site 12T59/530 within Prophetstown State Park, in Tippecanoe County, IN, during archeological work conducted under Indiana Department of Historic Preservation and Archaeology (DHPA) plan 3513, permit 201022. This Phase 111 data recovery was prompted by a wetland and forest mitigation project associated with the SR 25 Hoosier Heartland Corridor (INDOT DES No. 0901664, formerly 9802920). The human remains were recovered from state-owned land.

Upon recovering the human remains, IPFW archeology staff contacted the Tippecanoe County Coroner, who determined that the remains were over 100 years old. Also notified was staff from Prophetstown State Park and the Indiana Department of Transportation
