

Frequency of response: Once a prospective partner organization reviews WaterSense materials and decides to join the program, it will submit the appropriate Partnership Agreement for its partnership category (this form is only submitted once). Professional Certifying Organizations must include additional documentation to begin their partnership by completing an Application for Professional Certifying Organization Approval (this form is only submitted once). Each year, EPA also asks partners to submit an Annual Reporting Form and Awards Application (voluntarily at the partner's discretion). Licensed certification providers for WaterSense-labeled new homes are asked to submit a Provider Quarterly Reporting Form four times each year. EPA also may conduct two Consumer Awareness Surveys over the three-year period of the ICR.

Total estimated burden: 6,830 hours (per year for both respondents and EPA). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$598,527 (per year for both respondents and EPA), includes \$1,578 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 2,096 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to changes in program requirements including using online forms for all non-CBI related data, discontinuing the individual irrigation partner category, and simplifying the quarterly provider reporting requirements, which have reduced operation & maintenance costs and lowered the estimated burden. EPA also better understands how long it takes partners to complete program forms and has better historical data to project new partners/forms over the next three years.
