

The HTS codes applicable to the products subject to the requirements of the preliminary injunction may be revised from time to time due to updates to the HTS by the International Trade Commission. Any such changes will be notified to the trade community in accordance with CBP's notification procedures. In addition, NMFS and CBP will actively monitor the border operations of the trade restriction and the certification requirement in the initial weeks of implementation to determine if the list of affected HTS codes can be adjusted to further minimize disruption to trade while maintaining compliance with the court order.

Importers are advised to determine if other NMFS program requirements (e.g., Tuna Tracking and Verification Program, Seafood Import Monitoring Program) or other agency requirements (e.g., Fish and Wildlife Service, State Department, Food and Drug Administration) have Automated Commercial Environment (ACE) data reporting requirements applicable to the HTS codes identified in Table 1 as subject to certification under the MMPA import provisions. In such cases, the other reporting requirements still pertain in addition to the Certification of Admissibility requirements imposed to effectuate the court order.

Until such time as the Court of International Trade (or other court of competent appellate jurisdiction) lifts the preliminary injunction, trade restrictions on these products harvested by gillnets in the UGC of Mexico within the vaquita's range will continue and Certification of Admissibility will be required for the HTS codes listed in this notice.

Authority: 16 U.S.C. 1361 *et seq.*

Dated: August 23, 2018.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

RIN 0648-XG440

Snapper-Grouper Fishery of the South Atlantic; 2018 Recreational Accountability Measure and Closure for South Atlantic Golden Tilefish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements accountability measures (AMs) for the golden tilefish recreational sector in the exclusive economic zone (EEZ) of the South Atlantic for the 2018 fishing year through this temporary rule. NMFS estimates recreational landings of golden tilefish in 2018 has reached the recreational annual catch limit (ACL). Therefore, NMFS closes the golden tilefish recreational sector in the South Atlantic EEZ on August 28, 2018. This closure is necessary to protect the golden tilefish resource.

DATES: This rule is effective 12:01 a.m., local time, August 28, 2018, until 12:01 a.m., local time, January 1, 2019.

FOR FURTHER INFORMATION CONTACT:

Frank Helies, NMFS Southeast Regional Office, telephone: 727-824-5305, email: frank.helies@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes golden tilefish and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

On January 2, 2018, as a result of golden tilefish being determined to be undergoing overfishing, NMFS published a final temporary rule in the **Federal Register** (83 FR 65) to reduce the combined ACL for golden tilefish in the South Atlantic to reduce overfishing of the stock. The final temporary rule was subsequently extended through January 3, 2019 (83 FR 28387; June 19, 2018). The recreational ACL in place during the effectiveness of the interim measures is 2,187 fish, during this

current 2018 fishing year. As described in the final temporary rule, the 2,187 fish is equivalent to 9,960 lb (4,395 kg), gutted weight. In accordance with regulations at 50 CFR 622.193(a)(2)(i) for the recreational sector, if recreational landings of golden tilefish reach the recreational ACL, the Assistant Administrator for NOAA Fisheries (AA) will file a notification with the Office of the Federal Register to close the recreational sector for the remainder of the fishing year. Landings data from the NMFS Southeast Fisheries Science Center indicate that the golden tilefish recreational ACL of 2,187 fish has been reached. Therefore, this temporary rule implements an AM to close the golden tilefish recreational sector of the snapper-grouper fishery for the remainder of the 2018 fishing year. As a result, the recreational sector for golden tilefish in the South Atlantic EEZ will be closed effective 12:01 a.m., local time August 28, 2018.

As the commercial sector, including both longline and hook-and-line components, are also closed, during the recreational closure, the bag and possession limits for golden tilefish in or from the South Atlantic EEZ are zero, and all harvest and possession of golden tilefish is prohibited. The recreational sector for golden tilefish will reopen on January 1, 2019, the beginning of the 2019 fishing year and the recreational fishing season.

Classification

The Regional Administrator for the NMFS Southeast Region has determined this temporary rule is necessary for the conservation and management of South Atlantic golden tilefish and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.193(a)(2)(i) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The AA finds that the need to immediately implement this action to close the recreational sector for golden tilefish constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment on this temporary rule pursuant to 5 U.S.C. 553(b)(B), because such procedures are unnecessary and contrary to the public interest. Such procedures are unnecessary because the regulations at 50 CFR 622.193(a)(2)(i) have already been subject to notice and comment,

and all that remains is to notify the public of the recreational closure for golden tilefish for the remainder of the 2018 fishing year. Prior notice and opportunity for comment are contrary to the public interest because of the need to immediately implement this action to protect the golden tilefish resource. Time required for notice and public comment would allow for continued recreational harvest and further exceedance of the recreational ACL.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 23, 2018.

Margo B. Schulze-Haugen,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 170816769-8162-02]

RIN 0648-XG394

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher Vessels Greater Than or Equal to 50 Feet Length Overall Using Hook-and-Line Gear in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels greater than or equal to 50 feet length overall (LOA) using hook-and-line gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the annual allowance of the 2018 Pacific cod total allowable catch apportioned to catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), September 1, 2018, through 2400 hours, A.l.t., December 31, 2018.

FOR FURTHER INFORMATION CONTACT: Obren Davis, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the

GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679. Regulations governing sideboard protections for GOA groundfish fisheries appear at subpart B of 50 CFR part 680.

The annual allowance of the 2018 Pacific cod total allowable catch (TAC) apportioned to catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear in the Central Regulatory Area of the GOA is 404 metric tons (mt), as established by the final 2018 and 2019 harvest specifications for groundfish of the GOA (83 FR 8768, March 1, 2018).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator) has determined that the annual allowance of the 2018 Pacific cod TAC apportioned to catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear in the Central Regulatory Area of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 344 mt and is setting aside the remaining 60 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear in the Central Regulatory Area of the GOA. While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would

delay the directed fishing closure of Pacific cod by catcher vessels greater than or equal to 50 feet LOA using hook-and-line gear in the Central Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 22, 2018.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure; request for comments.

SUMMARY: NMFS is opening directed fishing for Pacific cod by catcher vessels less than 60 feet (18.3 meters) length overall (LOA) using hook-and-line or pot gear in the Bering Sea and Aleutian Islands Management Area (BSAI). This action is necessary to fully use the 2018 total allowable catch of Pacific cod allocated to catcher vessels less than 60 feet LOA using hook-and-line or pot gear in the BSAI.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), September 1, 2018, through 2400 hours, A.l.t., December 31, 2018. Comments must be received at the following address no later than 4:30 p.m., A.l.t., September 12, 2018.
