Federal Railroad Administration
[Docket Number FRA–2018–0063]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that by letter dated July 11, 2018, Naugatuck Railroad Company (NAUG), the operator of trackage owned by the Connecticut Department of Transportation (CDOT) between Waterbury, CT, and Torrington, CT, known as the “Torrington Secondary,” petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 234. FRA assigned the petition Docket Number FRA–2018–0063.

NAUG seeks a waiver of compliance from the requirements of 49 CFR 234.247. Purpose of inspections and tests; removal from service of relay or device failing to meet test requirements. Specifically, NAUG seeks relief to operate over two non-functioning highway-rail grade crossings without making inspections and tests required in §§234.249 through 234.271.

Previous owners and operators of this track allowed signals in Torrington, CT, to fall into disrepair at Albert Street, DOT #503956B, and Litchfield Street, DOT #503957B, both two-way, single traffic lane streets. One crossing has equipment over 60 years old, and the second, more complex crossing signal system, has equipment that is over 30 years old. As part of Petitioner’s commitment to provide rail services to those that require them, the need to access areas of the railroad previously deemed out of service became necessary. In partnership with CDOT, through the CT Rail Freight Improvement Program, this track was rehabilitated to FRA Class 1 standards, but no grade crossing funding was available for these crossings. Petitioner requests relief to provide service to its customers and generate the revenue needed to continue to rehabilitate this segment of track.

In lieu of performing all required tests (and repairs identified by the required tests), Petitioner requests to continue limited operations over the two affected grade crossings by:

- Contacting local authorities to advise that a crossing may need to be occupied by a train.
- Stationing an employee at each crossing to provide warning to approaching highway traffic and communicate with motorists as needed.

as provided in Northeast Operating Rules Advisory Committee “stop and protect” rules.

All other grade crossings in Torrington are “stop and protect” crossings on two-way, single traffic lane streets, with no automatic highway warning protective devices.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation’s Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- Website: http://www.regulations.gov. Follow the online instructions for submitting comments.
- Hand Delivery: 1200 New Jersey Avenue SE, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by October 15, 2018 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy. For further information contact: For further information contact Mr. Steve Nanney, Project Manager, PHMSA, by telephone at 713–272–2855, or by email at Steve.Nanney@dot.gov.

Supplementary information: On August 16, 2018, (83 FR 40843) PHMSA published a notice to seek public comments on a report developed to support improvements in gas and hazardous liquid pipeline risk models. Based on the results of pipeline inspections and failure investigation findings, both PHMSA and the National Transportation Safety Board have identified general weaknesses in the risk models often used by pipeline operators in performing risk assessments for their integrity management programs. The Pipeline Risk Modeling Report considers the major types of pipeline risk models, and the effectiveness of each type in supporting risk assessments, as applied to pipeline operator decisions.

In an August 15, 2018, letter to PHMSA, the American Gas Association, the American Petroleum Institute, the American Public Gas Association, the Association of Oil Pipe Lines, and the Interstate Natural Gas Association of America requested a 30-day extension of the comment deadline to allow them and other interested stakeholders plan their review of the notice. PHMSA has concurred with the Associations’ request and has extended the comment period as shown in the DATES section of this notice. This extension will provide sufficient additional time for commenters to submit their comments.

Issued in Washington, DC, on August 24, 2018, under authority delegated in 49 CFR 1.97.

Linda Daugherty,
Deputy Associate Administrator for Field Operations.

Supplementary Information:

Title: Determinations Regarding Certain Nonbank Financial Companies.

OMB Control Number: 1505–0244.

Type of Review: Extension without change of a currently approved collection.

Abstract: Section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “DFA”) (Pub. L. 111–203) provides the Financial Stability Oversight Council (the “Council”) the authority to require that a nonbank financial company be supervised by the Board of Governors of the Federal Reserve System and be subject to prudential standards in accordance with Title I of the DFA if the Council determines that material financial distress at the firm, or the nature, scope, size, scale, concentration, interconnectedness, or mix of the activities of the firm, could pose a threat to the financial stability of the United States. The information collected in §1310.20 from state regulatory agencies will be used generally by FSOC to carry out its duties under Title I of the Dodd-Frank Act. The collections of information in §§1310.21 and 1310.22 provide an opportunity to request a hearing or submit written materials to the Council concerning whether, in the company’s view, material financial distress at the company, or the nature, scope, size, scale, concentration, interconnectedness, or mix of the activities of the company, could pose a threat to the financial stability of the United States.
