

production and for ownership share, it needs to be verifiable records that substantiate the reported amounts. The participant's production for the commodity is based on verifiable or reliable production records. Examples of reliable production records include evidence provided by the participant that is used to substantiate the amount of production reported when verifiable records are not available, including copies of receipts, ledgers of income, income statements of deposit slips, register tapes, invoices for custom harvesting, and records to verify production costs, contemporaneous measurements, truck scale tickets, or contemporaneous diaries that are determined acceptable by the county committee.

Reliable record means any nonverifiable record available that reasonably supports the eligible production, as determined acceptable by the FSA county committee.

Verifiable record means a document provided by the producer that can be verified by the FSA county committee through an independent source and is used to substantiate the eligible production.

Payment Limitation

For MFP payments, there will be a single combined \$125,000 per person or legal entity payment limitation for the five crops announced in this NOFA and a separate combined per person or legal entity \$125,000 payment limitation for hogs and milk.

Eligible Crops

To be eligible to receive an MFP payment for a crop, the amount of mechanically harvested production for soybeans, sorghum, wheat, ELS cotton, upland cotton, and corn will be the amount based on the crop types, intended uses, and status that are consistent with the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) program regulations in 7 CFR part 1412, except grazing is not an eligible intended use for MFP.

Paperwork Reduction Act Requirements

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), FSA is requesting comments from interested individuals and organizations on the information collection activities related to MFP. After the 60-day period ends, the information collection request will be submitted to OMB for the 3-year approval to cover MFP information collection.

To start the MFP information collection approval, FSA received emergency approval from OMB for 6 months. The emergency approval covers this NOFA and any other MFP information collection activities.

Title: Marketing Facilitation Program (MFP).

OMB Control Number: 0560—New.

Type of Request: New Collection.

Abstract: This information collection is required to support all MFP information collection activities (NOFA and the regulation in 7 CFR part 1409) to provide eligible producers payments with respect to commodities that have been significantly impacted by actions of foreign governments resulting in the loss of traditional exports. The information collection is necessary to evaluate the application and other required paperwork for determining the producer's eligibilities and assist in producer's payment calculations.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per response multiplied by the estimated total annual responses.

Public reporting burden for this information collection is estimated to include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collections of information.

Type of Respondents: Producers or farmers.

Estimated Annual Number of Respondents: 784,439.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 784,439.

Estimated Average Time per Response: 0.6983 hours.

Estimated Total Annual Burden on Respondents: 863,297.

FSA is requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Environmental Review

The environmental impacts for MFP have been considered in a manner consistent with the provisions of the National Environmental Policy Act (NEPA, 42 U.S.C. 4321–4347), the regulations of the Council on Environmental Quality (40 CFR parts 1500–1508), and the FSA regulation for compliance with NEPA (7 CFR part 799).

As stated in the MFP final rule, the implementation of MFP and the participation in MFP do not constitute major Federal actions that would significantly affect the quality of the human environment, individually or cumulatively. The final rule served as documentation of the programmatic environmental compliance decision for this federal program; therefore, CCC will not prepare additional environmental compliance documentation for this NOFA.

Federal Assistance Programs

SUPPLEMENTARY INFORMATION:

Title: Disaster Supplemental Nutrition Assistance Program (D-SNAP).

OMB Number: 0584-0336.

Expiration Date: 1/31/2019.

Type of Request: Revision of a previously approved collection.

Abstract: Pursuant to § 412 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5179, and § 5(h)(1) the Food and Nutrition Act of 2008, 7 U.S.C. 2014(h), the Secretary of Agriculture has the authority to establish a Disaster Supplemental Nutrition Assistance Program (D-SNAP), which is a temporary program State agencies may operate to provide food assistance to households affected by disasters. D-SNAP is separate and distinct from the Supplemental Nutrition Assistance Program (SNAP) because it has different standards of eligibility, is operated for a limited duration, and only provides one month's worth of benefits to eligible households.

State agencies must submit formal requests to operate D-SNAP to the Food and Nutrition Service (FNS) for approval, and may only request to operate D-SNAP in areas that have received a Presidential Disaster Declaration with authorization for Individual Assistance, also known as an IA declaration, from the Federal Emergency Management Agency (FEMA). In their D-SNAP requests, State agencies must outline their proposed procedures for conducting D-SNAP, designate the areas where they wish to operate, and provide sufficient supporting information. FNS reviews all D-SNAP requests and supporting information to ensure that all necessary requirements to operate D-SNAP are met. The information collected under this notice is required for State agencies to obtain FNS approval to operate D-SNAP.

The burden associated with the certification of D-SNAP applicants by State agencies is included under currently approved OMB information collection 0584-0064 (SNAP Forms: Applications, Periodic Reporting, Notices; expiration date: 07/31/2020), and the burden associated with the submission of form FNS-292B: Report of Disaster Supplemental Nutrition Assistance Benefit Issuance by State agencies is covered under the currently approved OMB information collection 0584-0037 (Report of D-SNAP Benefit

Issuance and Commodity Distribution for Disaster Relief; expiration date: 02/28/2021). Neither of these burden activities will be reflected in this submission.

Because it is impossible to predict the number of natural disasters and extreme weather events that result in an IA declaration in a given year, and because some State agencies may find that operation of a D-SNAP is not warranted even upon receipt of an IA declaration, FNS is revising this burden estimate based on the annual average number of formal D-SNAP requests that were submitted and approved since this collection was last approved. From fiscal year 2015 to 2017, and average of 5 State agencies requested and were approved to operate D-SNAP each year.

Once approved by FNS to operate D-SNAP, State agencies must submit any subsequent request to modify or expand operations to newly eligible areas to FNS for approval. These modification or expansion requests are typically reserved for when a large-scale disaster impacts different areas of a State in different ways or at different times. While these subsequent modification and expansion requests require substantially less time to prepare than initial D-SNAP requests, FNS is revising this burden estimate to account for these is slight increase in total annual burden.

Summary of burden hours:

Affected Public: State agencies and local governments.

Estimated Total Annual Number of Respondents: The total estimated number of respondents is 7. This includes: An average of 5 State agencies that submit D-SNAP requests, and 2 State agencies that submit subsequent requests to modify or expand approved D-SNAPs.

Estimated Frequency of Responses per Respondent: State agencies usually submit 1 D-SNAP request per year, and may occasionally submit 1 subsequent modification or expansion request.

Estimated Total Annual Responses: 7.

Estimated Total Hours per Response: Approximately 10 hours for State agency D-SNAP requests, and approximately 3 hours for each subsequent modification or expansion request.

Estimated Total Annual Burden on Respondents: 56.

Respondent	Estimated number of respondents	Responses annually per respondent	Total annual responses	Estimated average number of hours per response	Estimated total hours (col. dxe)
State Agency—Submission of D–SNAP Request	5	1	5	10	50
State Agency—Submission of D–SNAP modification or expansion request	2	1	2	3	6
