**SUPPLEMENTARY INFORMATION:** On August 16, 2018, (83 FR 40843) PHMSA published a notice to seek public comments on a report developed to support improvements in gas and hazardous liquid pipeline risk models. Based on the results of pipeline inspections and failure investigation findings, both PHMSA and the National Transportation Safety Board have identified general weaknesses in the risk models often used by pipeline operators in performing risk assessments for their integrity management programs. The

Pipeline Risk Modeling Report considers the major types of pipeline risk models, and the effectiveness of each type in supporting risk assessments, as applied to pipeline operator decisions.

In an August 15, 2018, letter to PHMSA, the American Gas Association, the American Petroleum Institute, the American Public Gas Association, the Association of Oil Pipe Lines, and the Interstate Natural Gas Association of America requested a 30-day extension of the comment deadline to allow them and other interested stakeholders plan their review of the notice.

PHMSA has concurred with the Associations’ request and has extended the comment period as shown in the **DATES** section of this notice. This extension will provide sufficient additional time for commenters to submit their comments.

Issued in Washington, DC, on August 24, 2018, under authority delegated in 49 CFR 1.97.

Monica Keitt, Chief Privacy Officer, VA Insurance Service, Department of Veterans Affairs Insurance Center, 5000 Wissahickon Avenue, Philadelphia, PA 19144, (215) 842-2000, Ext. 2905.

**SUPPLEMENTARY INFORMATION:** The Department is republishing, in full, the System of Records Notice (SORN) 36VA29 that was last published on October 22, 2010. This republication provides a number of nonsignificant edits added for clarity and brevity, such as minor updates involving the locations and references of the mailing addresses for both onsite and offsite records storage sites, corrected office designations for VA Insurance Center’s Director, amendment of website terminology that reflects more accurate nomenclature for access, and includes references to the amended title of the vendor that provides telecommunication services to the Veterans Insurance Phone Section (VIPS). This nonsignificant alteration also eliminates references to the amendments made in the revised and consolidated SORN 36VA29 of October 22, 2010.

This amendment also provides for a number of modifications for routine uses that include text changes and additions that are considered to be a significant amendment based on VA requirements. The following are the changes made to the routine uses for SORN 36VA29.

The language of routine use number one, which states, “The record of an individual who is covered by a system of records may be disclosed to a Member of Congress, or a staff person acting for the Member, when the Member or staff person requests the record on behalf of, and at the written request of, the individual”, has been amended to state, “VA may disclose information from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.” VA must be able to provide information about individuals to adequately respond to inquiries from Members of Congress at the request of constituents who have sought their assistance. This change to routine use number one is not a new routine use but is amended to reflect the current language used for the release of information to members of Congress.

The language of former routine use number seven, which is now designated as routine use number two, reads, “VA may, on its own initiative, disclose any information or records to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or confidentiality of information in the system of records has been compromised; (2) the Department has determined that, as a result of the suspected or confirmed compromise, there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the potentially compromised information; and (3) the disclosure is to agencies, entities, or persons whom VA determines are reasonably necessary to assist or carry out the Department’s efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm. This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724, as the terms are defined in 38 U.S.C. 5727”, has been amended to read, “VA may, on its own initiative, disclose information from this system to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that there has been a breach of the system of records; (2) VA has determined that as a result of the suspected or confirmed breach there is a risk of harm to individuals, VA (including its information systems, programs, and operations), the Federal Government, or national security; and the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with VA’s efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.”

This change to former routine use number seven, which is now designated as routine use number two, is not a new routine use. This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724.”
