SUPPLEMENTARY INFORMATION: The Department is correcting a clerical error in an amendment in FR Rule Doc. No. 2018–17480, which published on August 22, 2018, at 83 FR 42440. The rule removed outdated or superseded regulations in 34 CFR parts 200, 237, and 299. One of the amendments to part 200 intended to remove §§ 200.55 through 200.57. The heading to the amendment reflected that section span but its corresponding instruction (instruction 8) directed the removal of § 200.57 only. This document correctly removes §§ 200.55 and 200.56 as originally intended in the August 22, 2018, rule.

List of Subjects in 34 CFR Part 200

Education of disadvantaged, Elementary and secondary education, Grant programs-education, Indians-education, Infants and children, Juvenile delinquency, Migrant labor, Private schools, Reporting and recordkeeping requirements.

Francis S. Rego,
Assistant Secretary for Elementary and Secondary Education.

For reasons discussed in the preamble, the Secretary correctly amends 34 CFR part 200 as follows:

PART 200—TITLE I—IMPROVING THE ACADEMIC ACHIEVEMENT OF THE DISADVANTAGED

§§ 200.55 and 200.56 [Removed and Reserved]

1. The authority citation for part 200 continues to read as follows:

Authority: 20 U.S.C. 6301 through 6576, unless otherwise noted.

2. Remove and reserve §§ 200.55 and 200.56.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG–2018–0764]

Safety Zone; Annual Swim for Alligator Reef Lighthouse, Islamorada, FL

AGENCY: Coast Guard, DHS.

ACTION: Notice of enforcement of regulation.

SUMMARY: The Coast Guard will enforce the temporary safety zone for the 6th Annual Swim for Alligator Reef Lighthouse, Islamorada, Florida from 6:30 a.m. until 4:30 p.m. on September 15, 2018. Our regulation for Recurring Safety Zones in Captain of the Port Key West Zone identifies the regulated area for this event. This action is necessary to ensure the safety of event participants and spectators. During the enforcement period, no person or vessel may enter, transit through, anchor in, or remain within the regulated area without approval from the Captain of the Port Key West or a designated representative.

DATES: The regulations in 33 CFR 165.786, Table to § 165.786, Line No. 9.1 will be enforced from 6:30 a.m. until 4:30 p.m. on September 15, 2018.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call or email Gregory Bergstrom, Sector Key West Waterways Management Department, Coast Guard; telephone (305) 292–8772; email Greg.C.Bergstrom@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce the safety zones in 33 CFR 165.786. Table to § 165.786, Line No. 9.1, from 6:30 a.m. until 4:30 p.m. on September 15, 2018, for the annual Swim for Alligator Reef Lighthouse in Islamorada, Florida. Our regulation for Recurring Safety Zones in Captain of the Port Key West Zone, § 165.786, Line No. 9.1, specifies the location of the regulated area as all within 50 yards in front of the lead safety vessel preceding the first event participants, 50 yards behind the safety vessel trailing the last event participants, and at all times extend 100 yards on either side of the safety vessels. This action prevents vessels from transiting areas specifically designated as safety zones during the periods of enforcement. During the enforcement period, no person or vessel may enter, transit through, anchor within, or remain within the established regulated areas without approval from the Captain of the Port Key West or designated representative. The Coast Guard may be assisted by other Federal, State, or local law enforcement agencies in enforcing this regulation.

The Coast Guard will provide notice of the regulated area by Local Notice to Mariners and Broadcast Notice to Mariners. If the Captain of the Port Key West determines that the regulated area need not be enforced for the full duration stated in this publication, he or she may use a Broadcast Notice to Mariners to grant general permission to enter the regulated area.

Dated: August 27, 2018.

F.S. Rego,
Captain, U.S. Coast Guard, Captain of the Port Key West.

BILLING CODE 9110–04–P

DEPARTMENT OF EDUCATION

Title I, Parts A Through C; Christa McAuliffe Fellowship Program; and Empowerment Zone or Enterprise Community—Priority; Correction

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Correcting amendment.

SUMMARY: On August 22, 2018, the Secretary published a final rule amending the Code of Federal Regulations (CFR) by removing outdated or superseded regulations, which are no longer needed for the reasons discussed in the rule. There was a clerical error in one of the amendments that prevented two CFR sections from being removed. This document corrects that error.

DATES: This correction is effective August 31, 2018.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1–800–877–8339.

SUPPLEMENTARY INFORMATION: The correction is effective August 31, 2018. The Department made the correction for reasons discussed in the final rule.

Frank Brogan,
Assistant Secretary for Elementary and Secondary Education.

For reasons discussed in the preamble, the Secretary correctly amends 34 CFR part 200 as follows:

PART 200—TITLE I—IMPROVING THE ACADEMIC ACHIEVEMENT OF THE DISADVANTAGED

§§ 200.55 and 200.56 [Removed and Reserved]

1. The authority citation for part 200 continues to read as follows:

Authority: 20 U.S.C. 6301 through 6576, unless otherwise noted.

2. Remove and reserve §§ 200.55 and 200.56.

[FR Doc. 2018–18960 Filed 8–30–18; 8:45 am]
BILLING CODE 4000–01–P
On July 18, 1997, EPA promulgated a new 24-hour and a new annual NAAQS for PM$_{2.5}$ (62 FR 38652). On October 17, 2006, EPA revised the NAAQS for PM$_{2.5}$, tightening the 24-hour PM$_{2.5}$ standard from 65 micrograms per cubic meter (mg/m$^3$) to 35 mg/m$^3$, and retaining the annual PM$_{2.5}$ NAAQS at 15 mg/m$^3$ (71 FR 61144). Subsequently, on December 14, 2012, EPA revised the level of the health based (primary) annual PM$_{2.5}$ NAAQS to 12 mg/m$^3$. See 78 FR 3086 (January 15, 2013).1

Pursuant to section 110(a)(1), states must submit “within 3 years (or such shorter period as the Administrator may prescribe) after the promulgation of a national primary ambient air quality standard (or any revision thereof),” a plan that provides for the “implementation, maintenance, and enforcement” of such NAAQS. The statute directly imposes on states the duty to make these SIP submissions and the requirements to make the submissions is not conditioned upon EPA’s taking any action other than promulgating a new or revised NAAQS. Section 110(a)(2) includes a list of specific elements that “[e]ach such plan” submission must address. EPA commonly refers to such state plans as “infrastructure SIPs.”

II. Summary of SIP Revision and EPA Analysis

On August 18, 2016, the State of Maryland, through the Maryland Department of the Environment (MDE), formally submitted a SIP revision (SIP #16–12) in order to satisfy the requirements of section 110(a) of the CAA for the 2012 PM$_{2.5}$ NAAQS. The SIP submittal addressed the following infrastructure elements for the 2012 PM$_{2.5}$ NAAQS: CAA section 110(a)(2)(A), (B), (C), (D)(i)(I), (D)(i)(II), D(ii), (E), (F), (G), (H), (J), (K), (I), and (M).

Maryland’s infrastructure SIP submittal did not address the following two elements of CAA section 110(a)(2): The portion of section 110(a)(2)(C) pertaining to permit programs, known as nonattainment new source review (NNSR), under part D of the CAA, and section 110(a)(2)(I), referred to as “element (I),” pertaining to the nonattainment requirements of part D, title I of the CAA. The EPA guidance issued on September 13, 2013 (2013 Infrastructure Guidance),2 the NNSR permitting program requirement of section 110(a)(2)(C) is to be addressed in a different SIP, and therefore does not need to be addressed in this SIP revision. Section 110(a)(2)(I) is not required to be submitted by the 3-year submission deadline of CAA section 110(a)(1) and will be addressed in a separate process if necessary.

On July 5, 2018 (83 FR 31352), EPA published a notice of proposed rulemaking (NPR) for Maryland. In the NPR, EPA proposed approval of Maryland’s August 18, 2016 infrastructure SIP submittal for the 2012 PM$_{2.5}$ NAAQS. A detailed summary of EPA’s review and rationale for approving Maryland’s submittal may be found in the Technical Support Document (TSD) for this rulemaking action, which is available online at www.regulations.gov, Docket ID Number EPA–R03–OAR–2017–0441.

IV. Final Action

EPA’s review of Maryland’s August 18, 2016 infrastructure SIP submittal for the 2012 PM$_{2.5}$ NAAQS indicates that MDE’s August 18, 2016 submittal satisfies the infrastructure requirements of CAA section 110(a) for the 2012 PM$_{2.5}$ NAAQS.3 EPA is approving Maryland’s

---

1 Guidance on Infrastructure State Implementation Plan (SIP) Elements under Clean Air Act Sections 110(a)(1) and 110(a)(2).” Memorandum from Stephen D. Page, September 13, 2013.

2 As stated above, Maryland’s infrastructure SIP submittal did not address the portion of CAA section 110(a)(2)(C) pertaining to the NNSR permitting program nor CAA section 110(a)(2)(I) pertaining to the nonattainment requirements of part D, title I of the CAA. The CAA Infrastructure Guidance, the NNSR permitting program requirement of section 110(a)(2)(C) is to be addressed in a different SIP and therefore does not need to be addressed in this SIP revision. Section 110(a)(2)(I) is not required to be submitted by the 3-year submission deadline of CAA section 110(a)(1) and will be addressed in a separate process if necessary.

3 In EPA’s 2012 PM$_{2.5}$ NAAQS revision, EPA left unchanged the existing welfare (secondary) standards for PM$_{2.5}$ to address particulate matter (PM) related effects such as visibility impairment, ecological effects, damage to materials, and climate impacts. This includes a secondary annual standard of 15 μg/m$^2$ and a 24-hour standard of 35 μg/m$^3$. This standard and other PM$$_{2.5}$ and PM$$_{10}$ Ambient Air Quality Standards and other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through http://www.regulations.gov, or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional availability information.
August 18, 2016 infrastructure SIP submittal for the 2012 PM_{2.5} NAAQS as a revision to the Maryland SIP.

V. Statutory and Executive Order Reviews

A. General Requirements

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because

  SIP approvals are exempted under Executive Order 12866.
  - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
  - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
  - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
  - does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
  - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  - is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
  - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 30, 2018. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action approving Maryland’s August 18, 2016 infrastructure SIP submittal for the 2012 PM_{2.5} NAAQS may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Cecil Rodrigues,
Acting Regional Administrator, Region III.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Michigan; Minor New Source Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving certain changes to the Michigan State Implementation Plan (SIP). This action relates to changes to the Permit To Install (PTI) requirements of Part 2 of the Michigan Administrative Code (Part 2 Rules). Changes to the Part 2 Rules were submitted on November 12, 1993; May 16, 1996; August 15, 1997 (82 FR 38651), with a new extension due to missing files in the docket on regulations.gov. The comment period reopened for an additional 30 days on November 2, 2003; March 24, 2009; and February 28, 2017. EPA has established a docket for this action under Docket ID No. EPA–R05–OAR–2007–1092. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through www.regulations.gov or at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Rachel Rineheart, Environmental Engineer, at (312) 886–7017 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT: Rachel Rineheart, Environmental Engineer, Air Permits Section, Air Programs Branch (AR–18), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–7017, rineheart.rachel@epa.gov.

DATES: This final rule is effective on August 30, 2018 (83 FR 1003). EPA is taking no action.

ADDRESSES: EPA has not taken a final action on any of the submittals. The following table provides a summary of the various state submittals with the most recent version of each section of the Michigan Rule highlighted in bold.

EPA published a proposed approval of all changes, except the public notice procedures in Michigan R. 366.1205, on August 15, 2017 (82 FR 38651), with a 30-day public comment period. EPA reopened the comment period twice due to missing files in the docket on regulations.gov. The comment period was reopened for an additional 30 days on November 2, 2003; March 24, 2009; and February 28, 2017. EPA is taking no action on Michigan R. 366.1205 at this time.

B. Why did the state make these SIP submissions?

Section 110(a)(2)(C) of Clean Air Act (the Act) requires that each SIP include a program to provide for the regulation of construction and modification of stationary sources as necessary to assure that the National Ambient Air Quality Standards (NAAQS) are achieved. Specific elements for an approvable construction permitting plan are found in the implementing regulations at 40 CFR part 51, subpart I—Review of New Sources and Modifications. Requirements relevant to minor construction programs are 40 CFR 51.160–51.164. EPA regulations have few specific criteria for state minor new source review (NSR) programs. Generally, state programs must set forth legally enforceable procedures that allow the state to prevent any planned construction activity that would result in a violation of the state’s SIP or a national standard. The revisions to Part 2 submitted by MDEQ are largely provisions that strengthen the already approved minor NSR program adding greater detail with respect to applicability, required application material, and processing of applications; however, the revisions do include changes to waiver provisions...
