

which it creates or maintains the records. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is expressly limited to a specific medium. (See 36 CFR 1225.12(e).)

Agencies may not destroy Federal records without Archivist of the United States' approval. The Archivist approves destruction only after thoroughly considering the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value.

In addition to identifying the Federal agencies and any subdivisions requesting disposition authority, this notice lists the organizational unit(s) accumulating the records (or notes that the schedule has agency-wide applicability when schedules cover records that may be accumulated throughout an agency); provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction); and includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it also includes information about the records. You may request additional information about the disposition process at the addresses above.

#### Schedules Pending

1. Department of Agriculture, Forest Service (DAA-0095-2018-0015, 1 item, 1 temporary item). General correspondence, policies, and project reports related to pesticide development, use, management, and safety.

2. Department of Agriculture, Forest Service (DAA-0095-2018-0022, 1 item, 1 temporary item). Administrative policies and procedures, correspondence, memoranda, and training records of the law enforcement program.

3. Department of Agriculture, Forest Service (DAA-0095-2018-0029, 1 item, 1 temporary item). General correspondence, coordination, and progress records related to energy program management.

4. Department of Agriculture, Forest Service (DAA-0095-2018-0030, 2 items, 2 temporary items). Correspondence, applications, and supporting documents related to the

management and tracking of grazing permit applications.

5. Department of Agriculture, Forest Service (DAA-0095-2018-0031, 1 item, 1 temporary item). General correspondence and inquiries related to nonstructural range improvements.

6. Department of Agriculture, Forest Service (DAA-0095-2018-0033, 1 item, 1 temporary item). General correspondence, statistical data, plans, and agreements related to the management of wild free-roaming horses and burros.

7. Department of Agriculture, Forest Service (DAA-0095-2018-0038, 1 item, 1 temporary item). General correspondence, statistical data, and reports related to the management of recreation sites and programs.

8. Department of Agriculture, Forest Service (DAA-0095-2018-0040, 1 item, 1 temporary item). Correspondence, inventory and monitoring reports, and general inquiries related to trail management.

9. Department of Agriculture, Forest Service (DAA-0095-2018-0041, 1 item, 1 temporary item). Correspondence, progress reports, and purchasing lists related to management of recycling and waste prevention programs acquisition activities.

10. Department of Agriculture, Forest Service (DAA-0095-2018-0043, 2 items, 2 temporary items). Correspondence, market trend data, rate and cost tables, and studies related to timber value appraisals.

11. Department of Homeland Security, Immigration and Customs Enforcement (DAA-0567-2018-0001, 2 items, 2 temporary items). Records of participation in alternatives to detention programs.

12. Department of Homeland Security, Transportation Security Administration (DAA-0560-2017-0021, 14 items, 14 temporary items). Occupational safety, health, and environment records.

13. Department of Justice, Criminal Division (DAA-0060-2018-0001, 3 items, 1 temporary item). Records documenting the administration of the United States Victims of State Sponsored Terrorism Fund, including non-significant administrative and operations records. Proposed for permanent retention are background and policy files, including claims forms and supporting case files.

14. Federal Maritime Commission, Office of the Inspector General (DAA-0358-2017-0003, 12 items, 8 temporary items). Records relating to routine investigations, audits and evaluations, and peer reviews. Proposed for permanent retention are records relating

to significant audits and investigations, final policy, and reports to Congress.

**Laurence Brewer,**

BILLING CODE 7515-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346; NRC-2018-0192]

### FirstEnergy Nuclear Operating Company; FirstEnergy Nuclear Generation, LLC; Davis-Besse Nuclear Power Station, Unit No. 1

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is making a finding of no significant impact (FONSI) for a proposed issuance of an exemption to FirstEnergy Nuclear Operating Company (FENOC, the licensee), for Davis-Besse Nuclear Power Station (DBNPS), Unit No. 1, located in Ottawa County, Ohio. The proposed action would grant the licensee a partial exemption from the "Physical barrier" requirements in the NRC's regulations, to allow FENOC to continue using vertical, rather than angled, barbed wire fence toppings in certain limited protected area sections on-site. The NRC is considering an Exemption to Renewed Facility Operating License No. NPF-3, issued on December 8, 2015, and held by FENOC; and First Energy Nuclear Generation, LLC; for the operation of DBNPS, Unit No. 1.

**DATES:** The environmental assessment referenced in this document is available on September 4, 2018.

**ADDRESSES:** Please refer to Docket ID NRC-2018-0192 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0192. Address questions about NRC dockets to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System*

(ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at: <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). For the convenience of the reader, the ADAMS accession numbers are provided in a table in the "Availability of Documents" section of this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:**

Bhalchandra K. Vaidya, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3308; email:

[Bhalchandra.Vaidya@nrc.gov](mailto:Bhalchandra.Vaidya@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

The NRC is considering issuance of a partial exemption, pursuant to section 73.5 of title 10 of the *Code of Federal Regulations* (10 CFR), "Specific exemptions," from the "Physical barrier" requirements of 10 CFR 73.2, specifically with respect to the design criteria specified in 10 CFR 73.2 (1) "fences," as it applies to the angular specification for brackets used to support the required barbed wire (or similar material) topper, to FENOC and First Energy Nuclear Generation, LLC (collectively, the licensee), for DBNPS, Unit No. 1, located in Ottawa County, Ohio.

In accordance with 10 CFR 51.21, the NRC has prepared an environmental assessment (EA) that analyzes the environmental effects of the proposed action. Based on the results of the EA, and in accordance with 10 CFR 51.31(a), the NRC has prepared a FONSI for the proposed exemption.

**II. Environmental Assessment**

*Description of the Proposed Action*

The proposed action would grant the licensee a partial exemption from the "physical barrier" requirements of 10 CFR 73.2, specifically with respect to the design criteria specified in 10 CFR 73.2(1) "fences," as it applies to the angular specification for brackets used to support the required barbed wire (or similar material) topper. As stated in 10 CFR 73.2, fences must be constructed of No. 11 American wire gauge, or heavier

wire fabric, topped by three strands or more of barbed wire or similar material on brackets angled inward or outward between 30 and 45 degrees from the vertical, with an overall height of not less than 8 feet, including the barbed topping. If approved, the partial exemption would allow the licensee to continue to use, without modification, the current configuration of vertical barbed wire fence toppings in limited protected area sections on-site, as specified on the maps submitted by the licensee in its letter dated March 16, 2018, to meet the regulatory requirements of 10 CFR part 73, "Physical protection of plants and materials." Specifically, barbed wire on top of physical barrier fencing on gates, near gates, near interfaces with buildings, and on corners is oriented vertically.

The proposed action is in accordance with the licensee's application dated July 19, 2017, as supplemented by letters dated March 16, 2018; and May 2, 2018.

*Need for the Proposed Action*

Physical protection consists of a variety of measures to protect nuclear facilities and material against sabotage, theft, diversion, and other malicious acts. The NRC and its licensees use a graded approach for physical protection, consistent with the significance of the facilities or material to be protected. In so doing, the NRC establishes the regulatory requirements and assesses compliance, and licensees are responsible for providing the protection.

The proposed action is needed to allow the licensee to continue to use, without modification, the current configuration of vertical barbed wire fence toppings in certain limited protected area sections on-site, as shown on the maps submitted by the licensee in its March 16, 2018, letter. Currently, some of the barbed wire bracketing on top of the protected area physical barrier fencing do not meet certain design criteria specified in 10 CFR 73.2. Specifically, barbed wire on top of physical barrier fencing on gates, near gates, near interfaces with buildings, and on corners is oriented vertically.

Separate from this EA, the NRC staff is evaluating the licensee's proposed action which will be documented in a safety evaluation report. The staff's review will determine whether there is reasonable assurance that the site maintains adequate protection from the current physical barriers in accordance with the requirements in 10 CFR part 73.

*Environmental Impacts of the Proposed Action*

The NRC has completed its environmental evaluation of the proposed action. The proposed action would grant the licensee a partial exemption from the "physical barrier" requirements of 10 CFR 73.2, specifically with respect to the design criteria specified in 10 CFR 73.2(1) "fences," as it applies to the angular specification for brackets used to support the required barbed wire (or similar material) topper. This will allow the licensee to continue using vertical, rather than angled, barbed wire fence toppings in certain limited protected area sections on site.

The proposed action would have no direct impacts on land use or water resources, including terrestrial and aquatic biota as the proposed action involves no new construction or modification of plant operational systems. There would be no changes to the quality or quantity of non-radiological effluents. No changes to the plant's National Pollutant Discharge Elimination System permit are needed. In addition, there would be no noticeable effect on air pollutant emissions, socio-economic conditions in the region, no environment justice impacts, and no impacts to historic and cultural resources. Therefore, there would be no significant non-radiological impacts associated with the proposed action.

The NRC has concluded that the proposed action would not significantly affect plant safety and would not have a significant adverse effect on the probability of an accident occurring. There would be no change to radioactive effluents that affect radiation exposures to plant workers and members of the public. No changes would be made to plant buildings or the site property. Therefore, implementing the proposed action would not result in a change to the radiation exposures to the public or radiation exposure to plant workers.

*Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed action, the NRC considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the exemption request would result in the licensee having to replace the vertical barbed wire fence toppings with angled barbed wire that meets the definition of "Physical barrier" in 10 CFR 73.2. This could result in temporary, minor changes in vehicular traffic and associated air pollutant emissions due

to any construction-related impacts of performing the necessary modifications, but no significant changes in ambient air quality would be expected.

*Alternative Use of Resources*

There are no unresolved conflicts concerning alternative uses of available resources under the proposed action.

*Agencies and Persons Consulted*

The NRC staff did not enter into consultation with any other Federal agency or with the State of Ohio regarding the environmental impact of the proposed action.

**III. Finding of No Significant Impact**

The licensee has requested an exemption from the “physical barrier” requirements of 10 CFR 73.2,

specifically with respect to the design criteria specified in 10 CFR 73.2(1) “fences,” to allow the licensee to continue using vertical, rather than angled, barbed wire fence toppings in limited protected area sections on site. The NRC is considering issuing the requested exemption. The proposed action would not significantly affect plant safety, would not have a significant adverse effect on the probability of an accident occurring, and would not have any significant radiological and non-radiological impacts. This FONSI incorporates by reference the EA in Section II of this notice. Therefore, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the

NRC has determined not to prepare an environmental impact statement for the proposed action.

The related environmental document is NUREG-1437, “Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding the Davis-Besse Nuclear Power Station, Final Report,” Supplement 52, Volumes 1 and 2, which provides the latest environmental review of current operations and a description of environmental conditions at DBNPS.

**IV. Availability of Documents**

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

Document	ADAMS accession No.
FirstEnergy Nuclear Operating Company; Exemption Request for a Physical Barrier Requirement; Dated July 19, 2017 .....	ML17200D139
FirstEnergy Nuclear Operating Company; Response to Request For Additional Information Regarding Exemption Request for a Physical Barrier Requirement; Dated March 16, 2018.	ML18078A033
FirstEnergy Nuclear Operating Company; Response to Request For Additional Information Regarding Exemption Request for a Physical Barrier Requirement; Dated May 2, 2018.	ML18122A133
NUREG-1437, Supplement 52, Vol. 1 and 2; Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding the Davis-Besse Nuclear Power Station, Final Report; Dated April 2015.	ML15112A098, ML15113A187

Dated at Rockville, Maryland, this 29th day of August 2018.

For the Nuclear Regulatory Commission.

**BILLING CODE 7590-01-P**

**NUCLEAR REGULATORY COMMISSION**

[NRC-2018-0169]

**Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment request; notice of opportunity to comment, request a hearing, and petition for leave to intervene; order imposing procedures.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) received and is

considering approval of two amendment requests. The amendment requests are for Waterford Steam Electric Station, Unit 3, and Calvert Cliffs Nuclear Power Plant, Units 1 and 2. For each amendment request, the NRC proposes to determine that they involve no significant hazards consideration. Because each amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation.

**DATES:** Comments must be filed by October 4, 2018. A request for a hearing must be filed by November 5, 2018. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR), who believes access to SUNSI is necessary to respond to this notice must request document access by September 14, 2018.

**ADDRESSES:** You may submit comments by any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0169. Address questions about NRC dockets to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* May Ma, Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Janet C. Burkhardt, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-1384, email: [Janet.Burkhardt@nrc.gov](mailto:Janet.Burkhardt@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Obtaining Information and Submitting Comments**

*A. Obtaining Information*

Please refer to Docket ID NRC-2018-0169, facility name, unit number(s), plant docket number, application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0169.
- *NRC’s Agencywide Documents Access and Management System*
