

expensive transactions.¹⁸ In this regard, the Exchange notes that proposed new optional functionality may improve the Exchange market by attracting more Order flow, which is currently trading on less transparent venues that contribute less to price discovery and price competition than executions and quotes that occur on lit exchanges. Such new Order flow will further enhance the depth and liquidity on the Exchange, which supports just and equitable principles of trade. Furthermore, the proposed modification to the Minimum Quantity Order Attribute is consistent with providing market participants with greater control over the nature of their executions so that they may achieve their trading goals and improve the quality of their executions.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. Specifically, the proposed change allows market participants to condition the processing of their Orders based on a minimum execution size. The changes to the Minimum Quantity Order Attribute will enhance the functionality offered by the Exchange to its members, thereby promoting its competitiveness with other exchanges and non-exchange trading venues that already offer the same or similar functionality. As a consequence, the proposed change will promote competition among exchanges and their peers, which, in turn, will decrease the burden on competition rather than place an unnecessary burden thereon.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

¹⁸ As noted, the proposal is designed to attract liquidity to the Exchange by allowing market participants to designate a minimum size of contra-side Order with which to interact, thus providing market participants with functionality that is otherwise available to them on another exchange (*i.e.*, Nasdaq). The designation of a minimum size may reduce the interaction that such new Order flow would have with smaller contra-side Orders on the Exchange, some of which may be retail Order flow. The Exchange notes that since the Order flow attracted by this functionality may also represent retail investors and is in addition to the existing Order flow currently on the Exchange, market quality for retail investors ultimately should not be negatively impacted. Accordingly, the Exchange does not believe that retail Orders will be disadvantaged by the proposed change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁹ and Rule 19b-4(f)(6) thereunder.²⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

Federal Highway Administration

Notice To Rescind a Notice of Intent To Prepare an Environmental Impact Statement for the Southern Evacuation Life Line Project in Georgetown and Horry Counties, SC

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice to rescind a Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that, effective immediately, we are rescinding a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) for the proposed Southern Evacuation Life Line (SELL) project in Georgetown and Horry counties, South Carolina.

FOR FURTHER INFORMATION CONTACT:

Emily O. Lawton, Division Administrator, Federal Highway Administration, Strom Thurmond Federal Building, 1835 Assembly Street, Suite 1270, Columbia, South Carolina 29201, Telephone: (803) 765-5411, Email: emily.lawton@dot.gov.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the South Carolina Department of Transportation (SCDOT), issued a NOI on March 17, 2006, to prepare an environmental impact statement (EIS) on a proposal for a new alignment roadway, known as the Southern Evacuation Life Line (SELL), located in Georgetown and Horry counties, South Carolina. The purpose of the project was to establish a new alignment hurricane evacuation route for the southeastern portion of Horry County and the northeastern portion of Georgetown County in South Carolina, between U.S. 17 near Garden City, SC, and U.S. 501 near Aynor, SC. The FHWA was initially involved as the lead federal agency for this project as there was a federal earmark of \$4 million being used for the project that was being administered by FHWA. A Draft Environmental Impact Statement (DEIS) was prepared and a Notice of Availability was issued on August 15, 2008. However, the proposed project was postponed after the DEIS was published due a lack of funding at that time. The \$4 million from the federal earmark that was being administered by FHWA was completely expended for this effort.

In late 2016, Horry County passed the RIDE III Capital Project Sales Tax program, which included an allocation of \$25 million for the SELL project to fund preliminary engineering (including the preparation of a new environmental impact statement), as well as right-of-way acquisition, should a build alternative be selected for the project.

Since the federal earmark has been completely expended, and no new federal-aid highway program funding has been identified for the project, FHWA no longer has a federal action per Title 23 of the U.S. Code. In addition, given the amount of time that has passed since the DEIS was completed, SCDOT and Horry County will essentially need to restart the NEPA process for the project. Due to this, the

FHWA is issuing a Notice to Rescind the Notice of Intent to prepare and EIS for the SELL project that was initially issued March 17, 2006.

Dated: August 31, 2018.

Emily O. Lawton,

Division Administrator, Columbia, South Carolina.
