

open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁶ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes the proposed rule change protects investors and the public interest because it provides all Users with an efficient process to enter and update auction responses. Like quoting, auction responses are a critical form of liquidity on the Exchange. Auction mechanisms and the execution and price improvement opportunities they provide are dependent on auction responses submitted during the auctions. Permitting Users to submit auction responses into bulk order ports is consistent with the purpose of these ports and have a similar purpose as the orders that Users are currently permitted to enter into bulk order ports. The Exchange believes the proposed rule change may encourage the provision of additional liquidity in auctions, which will provide additional execution and price improvement opportunities to auctioned orders, which ultimately benefit investors.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe the proposed rule change will impose any burden on intramarket competition, as the use of bulk order ports and the proposed functionality is voluntary and available to all Users of the Exchange. Bulk order entry functionality is available to all Users of the Exchange, as is the proposed functionality to submit auction responses into bulk order ports. Users may already submit auction responses to the Exchange using other types of ports—the proposed rule change merely provides Users of the Exchange with an additional method to submit auction responses to the Exchange. The Exchange does not believe the proposed rule change will have any direct impact on intermarket competition, as the proposed rule change relates solely to the manner in which Users may submit auction responses into auctions occurring on the Exchange.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

The Exchange has satisfied this requirement.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-84012; File No. SR-BX-2018-040]

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Provide New Optional Functionality to Minimum Quantity Orders

August 31, 2018.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 20, 2018, Nasdaq BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to provide new optional functionality to Minimum Quantity Orders.

The text of the proposed rule change is available on the Exchange's website at <http://nasdaqbx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**1. Purpose**

The Exchange is proposing to provide a new optional functionality to the

Minimum Quantity Order Attribute,³ which is identical to the optional functionality provided by The Nasdaq Stock Market LLC ("Nasdaq").⁴

Current Functionality

An Order designated with the Minimum Quantity Order Attribute ("MQ") allows a market participant to specify a minimum share amount at which it will execute. For example, a market participant seeking to buy or sell a large position may desire to execute only if a large quantity of shares can be traded to reduce the price impact of the security being bought or sold. An Order with MQ will not execute unless the volume of contra-side liquidity available to execute against the order meets or exceeds the designated minimum. When an Order with MQ is received by the Exchange, it will execute immediately⁵ if there is sufficient liquidity available on the Exchange within the limit price of the Order with MQ. Specifically, the Order with MQ will execute if the sum of the shares of one or more resting Orders is equal to or greater than its minimum quantity. In the case of multiple resting Orders being aggregated to meet the minimum quantity, each contra-side order creates a separate execution and thus there can be multiple executions that, in aggregate, equal or exceed the minimum quantity. If an Order with MQ does not execute immediately due to lack of contra-side liquidity that is equal to or greater than the designated minimum, the Order will post⁶ to the Exchange book as a Non-Displayed Order with the characteristics of its underlying Order Type.⁷ Once posted, an Order with MQ will execute only if an incoming Order is marketable against the resting Order with MQ and is equal to or greater than the minimum quantity set on the resting Order with MQ. Multiple potential executions cannot be aggregated to meet the minimum quantity requirement of the posted Order with MQ. If an Order with MQ executes partially and the number

³ Rule 4703(e).

⁴ See Nasdaq Rule 4703(e); see also Securities Exchange Act Release No. 73959 (Dec. 30, 2014), 80 FR 582 (Jan. 6, 2015) (SR-NASDAQ-2014-95).

⁵ An Order with MQ would satisfy the requirements of Regulation NMS Rule 611 and not trade through a protected quotation. See 17 CFR 242.611.

⁶ Orders post to the Exchange book only if they are designated with a time in force that allows for posting. For example, an IOC order never posts to the book.

⁷ A Non-Displayed Order is an Order Type that is not displayed to other Participants, but nevertheless remains available for potential execution against incoming Orders until executed in full or cancelled. See Rule 4702(b)(3). Orders with MQ are always Non-Displayed when posted on the Exchange book.
