This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An

ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG–2018–0791], and must be received by November 6, 2018.

Information Collection Request

Title: Official Logbook.

OMB Control Number: 1625–0018.

Summary: The Official Logbook contains information about the voyage, the vessel’s crew, drills, watches, and operations conducted during the voyage. Official Logbook entries identify particulars of the voyage, including the name of the ship, official number, port of registry, tonnage, names and merchant mariner credential numbers of the master and crew, the nature of the voyage, and class of ship. In addition, it also contains entries for the vessel’s drafts, maintenance of watertight integrity of the ship, drills and inspections, crew list and report of character, a summary of laws applicable to Official Logbooks, and miscellaneous entries.

Need: Title 46 U.S.C. 11301, 11302, 11303, and 11304 require applicable merchant vessels to maintain an Official Logbook. The Official Logbook contains information about the vessel, voyage, crew, and watch. Lack of these particulars would make it difficult for a seaman to verify vessel employment and wages, and for the Coast Guard to verify compliance with laws and regulations concerning vessel operations and safety procedures. The Official Logbook serves as an official record of recordable events transpiring at sea such as births, deaths, marriages, disciplinary actions, etc. Absent the Official Logbook, there would be no official civil record of these events. The courts accept log entries as proof that the logged event occurred. If this information was not collected, the Coast Guard’s commercial vessel safety program would be negatively impacted, as there would be no official record of U.S. merchant vessel voyages. Similarly, those seeking to prove that an event required to be logged occurred would not have an official record available.

Forms: CG–706B, Official Logbook.

Respondents: Shipping companies.

Frequency: On occasion.

Hour Burden Estimate: The estimated annual burden remains at 1,750 hours a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: August 30, 2018.

James D. Roppel,

U.S. Coast Guard, Acting Chief, Office of Information Management.
