

separate rulemaking. Until these standards are published as a final rule, we recommend that agencies discuss digitization projects with their general counsel before disposing of original records.

While we develop the standards necessary for digitizing permanent Federal records, agencies should continue to follow the process in the General Records Schedule, 36 CFR 1225.24, and NARA Bulletin 2010-04, Guidance Concerning Notifications for Previously Scheduled Permanent Records (<https://www.archives.gov/records-mgmt/bulletins/2010/2010-04.html>).

In addition to issuing digitization standards for temporary records, we are also removing 36 CFR 1236.1 because it restates the authorities already cited in the authority line. We are also working on revisions to the rest of this regulation regarding electronic records management, but those revisions will be reflected in future rulemakings.

Regulatory Review Information

This rule is not a significant regulatory action for the purposes of E.O. 12866 and a significance determination was requested from the Office of Management and Budget (OMB). As a result, this rule is also not subject to deregulatory requirements contained in E.O. 13771. It is also not a major rule as defined in 5 U.S.C. Chapter 8, Congressional Review of Agency Rulemaking. As required by the Regulatory Flexibility Act, we certify that this rule will not have a significant impact on a substantial number of small entities; it applies only to agency efforts to digitize temporary records. This rule also does not have any Federalism implications and does not contain any collections of information under the Paperwork Reduction Act.

- b. Adding a new Subpart D to read as follows:

Subpart D—Digitizing Federal Records
