Consultation

A detailed assessment of the human remains was made by the OSA

professional staff, acting on behalf of Coe College, in consultation with representatives of the Office of Hawaiian Affairs (OHA).

History and Description of the Remains

At an unknown date, human remains representing, at minimum, three individuals were removed from an unknown burial cave in Hawaii. In 1917, a professor at Coe College, in Cedar Rapids, Linn County, IA, donated the human remains and associated funerary object to the college museum. Coe College subsequently sent the human remains and associated funerary object to the OSA for analysis and assessment. The human remains represent two adults of unknown age and sex, and one juvenile, approximately 12 to 18 years old (Burial Project 1934). No known individuals were identified. The one associated funerary object is a woven grass lauhala mat. In addition to being used for lining the floors of dwellings and sleeping areas, these mats were often used in Hawaiian burial caves.

Determinations Made by the Office of the State Archeologist Bioarcheology Program

Officials of the Office of the State Archeologist Bioarcheology Program, acting on behalf of Coe College, have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of three individuals of Native Hawaiian ancestry.

After that date, if no additional

requestors have come forward, transfer of control of the human remains and associated funerary object to the Office of Hawaiian Affairs may proceed.

A detailed assessment of the human remains was made by the Heard Museum professional staff in consultation with representatives of Ak-Chin Indian Community (previously listed as the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona); Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico.

History and Description of the Remains

Prior to 1953, human remains representing, at minimum, one individual were removed from the vicinity of Gila Bend in Maricopa County, AZ, by Russell Cross and then acquired by the Heard Museum. In 1953, the museum assigned the human remains and associated funerary objects catalog number NA-SW-HH-A4-2. The human remains belong to a middle-aged adult of unknown gender. No known individuals were identified. The two associated funerary objects are one jar and one animal bone.

The jar is identified as Hohokam Sacaton Red-on-Buff with a low Gila Shoulder, and was made between approximately A.D. 900 and 1100. In 1990, the Ak-Chin Indian Community, Gila River Indian Community, Salt River Pima-Maricopa Community, and Tohono O'odham Nation adopted a joint policy statement stating that a cultural affiliation existed between themselves and the ancestors they described as "Hohokam."
