III. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the notice.

IV. Submitting Comments

You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA–2018–0203 and click the search button. When the new screen appears, click on the blue “Comment Now!” button on the right hand side of the page. On the new page, enter information required including the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

We will consider all comments and materials received during the comment period. FMCSA may issue a final determination at any time after the close of the comment period.

V. Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA–2018–0203 and click “Search.” Next, click “Open Docket Folder” and you will find all documents and comments related to this notice.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2012–0032]

Commercial Driver's License Standards: Application for Exemption; Daimler Trucks North America (Daimler)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition; grant of application for exemption.

SUMMARY: FMCSA announces its decision to grant an exemption to Daimler Trucks North America (Daimler) for one of its commercial motor vehicle (CMV) drivers. Daimler requested a 5-year exemption from the Federal requirement to hold a U.S. commercial driver's license (CDL) for Mr. Christophe Veber, Lead Engineer in Vehicle Predictive Technology for

Daimler. Mr. Veber holds a valid German commercial license and wants to test-drive Daimler vehicles on U.S. roads to better understand product requirements for these systems in “real world” environments, and verify results. Daimler believes the requirements for a German commercial license ensure that holders of the license will likely achieve a level of safety equal to or greater than that of drivers who hold a U.S. State-issued CDL.

DATES: This exemption is applicable September 10, 2018 and expires September 11, 2023.

ADDRESSES:

Docket: For access to the docket to read background documents or comments, go to www.regulations.gov at any time or visit Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. The on-line FDMS is available 24 hours each day, 365 days each year.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

I. Public Participation

Viewing Comments and Documents

To view comments, as well as documents mentioned in this preamble as being available in the docket, go to www.regulations.gov and insert the docket number, “FMCSA–2012–0032 in the “Keyword” box and click “Search.” Next, click the “Open Docket Folder” button and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for the grant or denial, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must also specify the applicability period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Request for Exemption

On behalf of Mr. Christophe Veber, Daimler has applied for a 5-year exemption from 49 CFR 383.23, which prescribes licensing requirements for drivers operating CMVs in interstate or intrastate commerce. Mr. Veber is unable to obtain a CDL in any of the States due to his lack of residency in the United States. A copy of the application is in Docket No. FMCSA–2012–0032.

The exemption would allow Mr. Veber to operate CMVs in interstate or intrastate commerce to support Daimler field tests designed to meet future vehicle safety and environmental requirements and to develop improved safety and emission technologies. Mr. Veber needs to drive Daimler vehicles on public roads to better understand “real world” environments in the U.S. market. According to Daimler, Mr. Veber will typically drive for no more than 6 hours per day for 2 consecutive days, and that 10 percent of the test driving will be on two-lane State highways, while 90 percent will be on Interstate highways. The driving will consist of no more than 200 miles per day, for a total of 400 miles during a two-day period on a quarterly basis. He will in all cases be accompanied by a

holder of a U.S. CDL who is familiar with the routes to be traveled.

Mr. Veber would be required to comply with all applicable Federal Motor Carrier Safety Regulations (FMCSRs) (49 CFR parts 350–399) except the CDL provisions described in this notice.

Mr. Veber holds a valid German commercial license, and as explained by Daimler in its exemption request, the requirements for that license ensure that the same level of safety is met or exceeded as if this driver had a U.S. CDL. Furthermore, according to Daimler, Mr. Veber is familiar with the operation of CMVs worldwide.

IV. Method To Ensure an Equivalent or Greater Level of Safety

FMCSA has previously determined that the process for obtaining a German commercial license is comparable to, or as effective as, the requirements of part 383, and adequately assesses the driver's ability to operate CMVs in the U.S. Since 2012, FMCSA has granted Daimler drivers similar exemptions [May 25, 2012 (77 FR 31422); July 22, 2014 (79 FR 42626); March 27, 2015 (80 FR 16511); October 5, 2015 (80 FR 60220); July 12, 2016 (81 FR 45217); July 25, 2016 (81 FR 48496); August 17, 2017 (82 FR 39151)].

V. Public Comments

On April 24, 2018, FMCSA published notice of this application and requested public comments (82 FR 17886). No comments were submitted.

VI. FMCSA Decision

Based upon the merits of this application, including Mr. Veber's extensive driving experience and safety record, FMCSA has concluded that the exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption, in accordance with § 381.305(a).

VII. Terms and Conditions for the Exemption

FMCSA grants Daimler and Christophe Veber an exemption from the CDL requirement in 49 CFR 383.23 to allow Mr. Veber to drive CMVs in this country without a U.S. State-issued CDL, subject to the following terms and conditions: (1) The driver and carrier must comply with all other applicable provisions of the FMCSRs (49 CFR parts 350–399); (2) the driver must be in possession of the exemption document and a valid German commercial license; (3) the driver must be employed by and operate the CMV within the scope of his duties for Daimler; (4) at all times while

operating a CMV under this exemption, the driver must be accompanied by a holder of a U.S. CDL who is familiar with the routes traveled; (5) Daimler must notify FMCSA in writing within 5 business days of any accident, as defined in 49 CFR 390.5, involving this driver; and (6) Daimler must notify FMCSA in writing if this driver is convicted of a disqualifying offense under § 383.51 or § 391.15 of the FMCSRs.

In accordance with 49 U.S.C. 31315 and 31136(e), the exemption will be valid for 5 years unless revoked earlier by the FMCSA. The exemption will be revoked if: (1) Mr. Veber fails to comply with the terms and conditions of the exemption; (2) the exemption results in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would be inconsistent with the goals and objectives of 49 U.S.C. 31315 and 31136.

VIII. Preemption

In accordance with 49 U.S.C. 31315(d), as implemented by 49 CFR 381.600, during the period this exemption is in effect, no State shall enforce any law or regulation applicable to interstate or intrastate commerce that conflicts with or is inconsistent with this exemption with respect to a firm or person operating under the exemption.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for five years if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The physical qualification standard for drivers regarding hearing found in 49 CFR 391.41(b)(11) states that a person is physically qualified to driver a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5–1951.

49 CFR 391.41(b)(11) was adopted in 1970, with a revision in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971).

The 2 individuals listed in this notice have requested renewal of their exemptions from the hearing standard in 49 CFR 391.41(b)(11), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits and decided to extend each exemption for a renewable two-year period.

II. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will
