Amendment of Class E Airspace; Lynchburg, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; technical amendment.

SUMMARY: This action amends the legal description of the Class E airspace at Lynchburg Regional Airport-Preston Glenn Field Airport, Lynchburg, VA. The NOTAM part-time status is removed from the Class E airspace area designated as an extension to a Class D surface area. This action does not affect the boundaries or operating requirements of the airspace.

DATES: Effective 0901 UTC, November 8, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11.B Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at <http://www.faa.gov/airtraffic/publications/>. SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1,

Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it makes a clerical correction removing the NOTAM part-time status from the Class E airspace area designated as an extension at Lynchburg Regional Airport-Preston Glenn Field, Lynchburg, VA.

History

The FAA Aeronautical Information Services branch found the Class E airspace area designated as an extension to a Class D surface area at Lynchburg Regional Airport-Preston Glenn Field Airport, Lynchburg, VA, was incorrectly identified as part time. This action also changes the airport name to Lynchburg Regional Airport-Preston Glenn Field.

Class E airspace designations are published in paragraph 6004 of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by removing the NOTAM part-time status from the Class E airspace area designated as an extension to a Class D airspace at Lynchburg Regional Airport-Preston Glenn Field Airport, Lynchburg, VA. The airport name also is changed from Lynchburg Regional-Preston Glenn Field to Lynchburg Regional Airport-Preston Glenn Field.

This is an administrative change and does not affect the boundaries, or

operating requirements of the airspace, therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Amendment of Class D and Class E Airspace; Louisville, KY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment.

SUMMARY: This action amends Class D airspace and Class E surface airspace for Bowman Field Airport, Louisville, KY, by adding the Louisville International Airport Class C exclusionary language into the legal description. The exclusionary language was inadvertently omitted from the final rule published November 1, 2017. This action also makes a minor editorial change to the Louisville, KY, airspace designation and airport name.

DATES: Effective 0901 UTC, September 11, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class D and Class E airspace at Bowman Field Airport, Louisville, KY, to support IFR operations at the airport.

History

The FAA published a final rule in the **Federal Register** (82 FR 50506; November 1, 2017) for Docket No. FAA–2016–9499 amending Class D airspace, and Class E surface airspace at Bowman Field Airport, Louisville, KY.

Subsequent to publication, the FAA discovered the Louisville Standiford Field Class C airspace exclusionary language was omitted from the Class D legal description of the airport. This rule adds the Class C exclusionary language into the legal descriptions, noting the airport name change to Louisville International Airport.

An editorial change is made that removes the airport name from the
