Title of Collection: Grantee Reporting Form—Rehabilitation Services Administration (RSA) Annual Payback Report.

OMB Control Number: 1820–0617.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households; Private Sector.

Total Estimated Number of Annual Responses: 11,790.

Total Estimated Number of Annual Burden Hours: 4,858.

Abstract: Under Section 302 of the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (WIOA), hereafter referred to as “The Act,” the RSA provides Long-Term Training grants to academic institutions to support scholarship assistance to scholars. Scholars who receive scholarships under this program are required to work within the public rehabilitation program, such as with a State vocational rehabilitation agency, or an agency or organization that has a service arrangement with a State vocational rehabilitation agency, in qualified employment fields, which include rehabilitation counseling, administration, supervision, teaching or research in vocational rehabilitation, supported employment, or independent living rehabilitation of individuals with disabilities, especially individuals with significant disabilities. The scholar is required to work two years in such settings for every year of full-time scholarship support. The service obligation for the scholar who matriculated part time, is based on the equivalent total of actual academic years of training received. The program regulations at 34 CFR 386.33–386.36 and 386.40–386.43 detail the payback provisions and the RSA scholars’ requirements to comply with them.

Section 302 (b)(2)(C) of the Act requires that data on the employment of scholars are accurate, including tracking of scholars’ employment status and location of former scholars supported under the RLTT grants in order to ensure that scholars are meeting the payback requirements.

In addition to meeting the requirement that all scholars be tracked, the data collected will provide performance data relevant to the rehabilitation fields and degrees pursued by RSA scholars, as well as the funds owed and the rehabilitation work completed by them. These data are used to assess program effectiveness and efficiency, and to meet the reporting

requirements of the Government Performance and Results Act (GPRA).

RSA is requesting a revision of the currently approved collection for grantees (Institutions of Higher Education) to submit an Annual Payback Report through the online RSA Management Information System (MIS). To collect the needed data, RSA created the revised Payback Information Management System (PIMS). Through the PIMS grantees, scholars and employers report data electronically.

DEPARTMENT OF ENERGY

[OE Docket No. PP–82–6]

Application To Amend Presidential Permit; Vermont Electric Power Company, Inc., as Agent for the Joint Owners in the Highgate Interconnection Facilities

AGENCY: Office of Electricity, DOE.

ACTION: Notice of application.

SUMMARY: Vermont Electric Power Company, Inc. (“VELCO”), as operating-and-management agent for the Joint Owners of the Highgate Interconnection Facilities (the “Highgate Joint Owners”) filed an application to amend PP–82, issued on May 14, 1985 and amended on March 1, 1994, September 3, 2003, February 7, 2005, May 3, 2016 and January 8, 2018. VELCO requested that DOE reflect changes in ownership of the Highgate Interconnection Facilities and transfer the ownership interests in the Highgate Interconnection Facilities from two of the Highgate Joint Owners to the third Highgate Joint Owner.

DATES: Comments or motions to intervene must be submitted on or before October 12, 2018.

ADDRESSES: Comments or motions to intervene should be addressed as follows: Office of Electricity (OE–20), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at 202–586–5260, or by email to Christopher.Lawrence@hq.doe.gov; Christopher Drake (Program Attorney) at 202–586–2919, or by email to Christopher.Drake@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance,

and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (E.O.) 10485, as amended by E.O. 12038.

On August 13, 2018, VELCO filed an application with DOE, as required by 10 CFR 205.322, requesting that DOE amend PP–82–5 to reflect a change in names and ownership interests and authorize, under Article 10 of PP–82–5, the transfer of the Highgate Interconnection Facilities so that Vermont Transco LLC (Transco) will acquire 100% of the ownership interest in the facility from the two other Highgate Joint Owners: the Town of Stowe Electric Department and the City of Burlington Electric Department. Transco would then become sole owner of the Highgate Interconnection Facilities.

The international transmission facilities authorized by Presidential Permit No. PP–82, as amended, include a back-to-back converter station in Highgate, Vermont, and a 345 kilovolt (kV) transmission line extending approximately 7.5 miles from the converter station to the United States-Canada border in Franklin, Vermont. VELCO does not propose to make any physical changes to the Highgate Interconnection Facilities, but rather asks the Department to amend the permit to reflect the change in ownership of the Highgate Transmission Facility.

Procedural Matters: Any person may comment on this application by filing such comment at the address provided above. Any person seeking to become a party to this proceeding must file a motion to intervene at the address provided above in accordance with Rule 214 of the Federal Energy Regulatory Commission’s Rules of Practice and Procedure (18 CFR 385.214). Two copies of each comment or motion to intervene should be filed with DOE on or before the date listed above.

Additional copies of such motions to intervene also should be filed directly with Mr. Colin Owyang, Vice President, General Counsel & Corporate Secretary, Vermont Electric Power Company, Inc., 366 Pinnacle Ridge Road, Rutland, VT 05701, cowyang@velco.com AND Margaret H. Claybour, Esq., Van Ness Feldman, LLP, 1050 Thomas Jefferson Street NW, Suite 700, Washington, DC 20007–3877, mhc@vnf.com.

Before a Presidential permit may be granted or amended, DOE must determine that the proposed action will not adversely impact the reliability of

the U.S. electric power supply system. In addition, DOE will consider the environmental impacts of the proposed action (*i.e.*, granting the Presidential permit or amendment, with any conditions and limitations, or denying the permit) according to the standards of the National Environmental Policy Act of 1969, as amended. DOE also must obtain the favorable recommendation of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be reviewed or downloaded electronically at <http://energy.gov/oe/services/electricity-policy-coordination-and-implementation/international-electricity-regulation-2>. Upon reaching the home page, select "Pending Applications."

Signed in Washington, DC, on August 31, 2018.
