I. Introduction

Pursuant to 39 U.S.C. 503 and 3641, this order establishes a rulemaking docket that proposes amendments to the Commission's regulations governing market tests of experimental products appearing in existing 39 CFR part 3035. The proposed amendments would revise regulations concerning market test revenue limitations and requests to add a non-experimental product or price category based on an experimental

product to the market dominant or competitive product list.¹ The proposed rules reflect lessons learned through the Commission's experiences with the existing regulations and current practice before the Commission. The proposed rules appear after the signature of this order in Attachment A.

II. Proposed Amendments

Section 3641 of title 39 of the United States Code authorizes the Postal Service to conduct market tests of experimental products. In accordance with its specific authority to regulate market tests under 39 U.S.C. 3641 and its general authority under 39 U.S.C. 503 to promulgate regulations and establish procedures, the Commission codified existing 39 CFR part 3035 to establish procedures for conducting market tests of experimental products.² The Commission establishes this proceeding to consider amendments to the existing market test regulations.

The proposed amendments are discussed below. The first set of amendments intend to revise the method for calculating applicable revenue limitations for market tests appearing in existing §§ 3035.15 and 3035.16 to be consistent with the current level of precision used in calculating the annual limitation on the percentage change in rates for market dominant products (price cap). The second set of proposed amendments aim to clarify the process under existing § 3035.18 for adding a non-experimental product or price category based on an experimental product to the market dominant or competitive product list and to emphasize the necessity of receiving specific detailed information in those instances.

A. Market Test Revenue Limitations

Unless the Commission grants an exemption, total revenues anticipated or in fact received by the Postal Service from an experimental product must not exceed \$10 million in any year. 39 U.S.C. 3641(e)(1). Upon written application of the Postal Service, the

Commission may exempt the market test from the \$10 million revenue limitation if certain requirements are met. 39 U.S.C. 3641(e)(2). If the Commission grants an exemption, total revenues anticipated, or in fact received by, the Postal Service from a market test may not exceed \$50 million in any year. Id. These amounts must be adjusted annually by the change in the Consumer Price Index for such year, as determined under the regulations of the Commission. 39 U.S.C. 3641(g). Existing § 3035.15(a) uses the Consumer Price Index—All Urban Customers (CPI-U index), as specified by §§ 3010.21(a) and 3010.22(a) of this chapter, to calculate these amounts.

Existing § 3035.15(d) explains the method for calculating the \$10 million revenue limitation on a fiscal year basis, as adjusted for the change in the CPI-U index (\$10 Million Adjusted Limitation). Calculating the \$10 Million Adjusted Limitation involves three steps. First, a simple average CPI-U index was calculated for Fiscal Year 2008 by summing the monthly CPI-U values from October 2007 through September 2008 and dividing the sum by 12. 39 CFR 3035.15(d); see 39 U.S.C. 3641(g). The result is a Base Average of 214.5. 39 CFR 3035.15(d). Second, a second simple average CPI-U index is calculated for each subsequent fiscal year by summing the 12 monthly CPI-U values for the previous fiscal year and dividing the sum by 12 to obtain a Recent Average. Id. Third, the revenue limitation for the current fiscal year is calculated by multiplying \$10 million by the Recent Average divided by the Base Average of 214.5. *Id.* The result is the \$10 Million Adjusted Limitation, rounded to the nearest dollar. Id. Existing § 3035.16(c) sets forth corresponding steps for calculating the \$50 million revenue limitation, as adjusted for the change in the CPI-U index (\$50 Million Adjusted Limitation).

Under existing §§ 3035.15 and 3035.16, the Base Average for both the \$10 Million and \$50 Million Adjusted Limitations is calculated using one decimal place (214.5). In Order No. 303, the Commission amended the price cap rules appearing in §§ 3010.21 and 3010.22 of this chapter to calculate the CPI–U price cap using three decimal places instead of one.³ The Commission

¹Product lists categorize postal products as either market dominant or competitive. 39 CFR 3020.1(b). Each experimental product during a market test is identified on the applicable product list under the organizational group heading ''Market Tests'' in accordance with 39 U.S.C. 3641(b)(3) and existing §§ 3020.4(b)(2)(ii)(D) and 3020.4(b)(3)(ii)(D) of this chapter. The intent of existing § 3035.18 and the revisions proposed in this order apply only to a request to offer a proposed product or price category in non-experimental status, that is—subject to the applicable requirements of 39 U.S.C. 3622, 3633, or 3642, and the applicable regulations promulgated thereunder.
