

- Ads for the survivorship survey will be targeted toward users who ‘like’, search, and/or visit web pages geared toward survivors, such as the National Cancer Survivors Day Facebook page. Individuals will be screened for eligibility until the target of up to 1,000 completes is met. It is expected that to reach 1,000 eligible respondents for the survivorship survey, 3,000 individuals will need to be screened.

- Ads for the high-risk survey will be targeted toward users who ‘like’, visit, or search for terms related to cancer and genetic testing. Individuals will be screened for eligibility until the target of up to 1,000 completes is met. It is expected that to reach 1,000 eligible respondents for the high-risk survey, 2,000 individuals will need to be screened.
- Eligible high-risk participants will be invited via email to participate in the

follow-up high-risk survey. Additional social media ads may also be placed, using the targeting methods described above. In order to survey 1,000 high-risk adults, it is expected that an additional 4,000 individuals will be screened.

Participation in this project is completely voluntary and there are no costs to the respondents other than their time.

[60Day–18–1061; Docket No. CDC–2018–0087]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Behavioral Risk Factor Surveillance System (BRFSS), an annual state-based health survey that produces state-level information on health risk behaviors, health conditions, and preventive health practices that are associated with chronic diseases, infectious diseases, and injury.
