**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Trends in International Mathematics and Science Study (TIMSS) 2019 Main Study.

*OMB Control Number:* 1850-0695.

*Type of Review:* A revision of an existing information collection.

*Respondents/Affected Public:* Individuals or Households.

*Total Estimated Number of Annual Responses:* 91,765.

*Total Estimated Number of Annual Burden Hours:* 43,181.

*Abstract:* The Trends in International Mathematics and Science Study

(TIMSS) is an international assessment of fourth and eighth grade students' achievement in mathematics and science. Since its inception in 1995, TIMSS has continued to assess students every 4 years, with the next TIMSS assessment, TIMSS 2019, being the seventh iteration of the study. TIMSS provides a comparison of U.S. student performance with those of their international peers in mathematics and science at grades 4 and 8. TIMSS is coordinated by the International Association for the Evaluation of Educational Achievement (IEA), an international collective of research organizations and government agencies that creates the assessment framework, assessments, and background questionnaires and provides procedures and technical standards which all countries must follow. In the U.S., the National Center for Education Statistics (NCES) conducts TIMSS. In preparation for the TIMSS 2019 main study, NCES conducted a field test in 2018 to evaluate new assessment items and background questions, to ensure practices that promote low exclusion rates, and to ensure that classroom and student sampling procedures proposed for the main study are successful. The request for the TIMSS 2019 Main Study recruitment & Field Test was approved in July 2017 with the latest change request approved in July 2018 (OMB# 1850-0695 v.10-13). The U.S. TIMSS 2019 main study recruitment began in May 2018, and data collection is scheduled to take place from April through May 2019. This request is to conduct the TIMSS 2019 Main Study. TIMSS 2019 results will be posted on NCES website.

that written comments received in response to this notice will be considered public records.

*Title of Collection:* National Assessment of Educational Progress (NAEP) 2019 and 2020 Update.

*OMB Control Number:* 1850–0928.

*Type of Review:* A revision of a previously approved information collection.

*Respondents/Affected Public:* Individuals or Households.

*Total Estimated Number of Annual Responses:* 379,934.

*Total Estimated Number of Annual Burden Hours:* 371,166.

*Abstract:* The National Assessment of Educational Progress (NAEP), conducted by the National Center for Education Statistics (NCES), is a federally authorized survey of student achievement at grades 4, 8, and 12 in various subject areas, such as mathematics, reading, writing, science, U.S. history, civics, geography, economics, technology and engineering literacy (TEL), and the arts. The National Assessment of Educational Progress Authorization Act (Public Law 107–279 Title III, section 303) requires the assessment to collect data on specified student groups and characteristics, including information organized by race/ethnicity, gender, socio-economic status, disability, and limited English proficiency. It requires fair and accurate presentation of achievement data and permits the collection of background, noncognitive, or descriptive information that is related to academic achievement and aids in fair reporting of results. The intent of the law is to provide representative sample data on student achievement for the nation, the states, and subpopulations of students and to monitor progress over time. The nature of NAEP is that burden alternates from a relatively low burden in national-level administration years to a substantial burden increase in state-level administration years when the sample has to allow for estimates for individual states and some of the large urban districts. The request to conduct NAEP 2019 and 2020 was approved in September 2018 (OMB# 1850–0928 v.10) including operational assessments, pilot tests, and special studies. NAEP 2019 will include operational, national-level, Digitally Based Assessments (DBA) in mathematics, reading, and science at grades 4, 8, and 12; operational, state-level DBA in mathematics and reading at grades 4 and 8; pilot DBA for 2021 reading and mathematics at grades 4 and 8; a paper-based assessment (PBA) to DBA bridge studies in mathematics and reading at

grade 12, and science at grades 4, 8, and 12; National Indian Education Study (NIES); Computer Access and Familiarity Study (CAFS); Socioeconomic Status (SES) Questionnaire Study; High School Transcript Study (HSTS); and Middle School Transcript Study (MSTS). This request updates the confidentiality pledges cited in NAEP and provides the final NAEP 2019 data collection and communication materials, including their Spanish-language translations where used. The NAEP results will be reported to the public through the Nation's Report Card as well as other online NAEP tools.

## DEPARTMENT OF ENERGY

[OE Docket No. EA–461]

### Application To Export Electric Energy; Saavi Energy Solutions, LLC

**AGENCY:** Office of Electricity, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Saavi Energy Solutions, LLC (Saavi Energy Solutions or Applicant) has applied for authority to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before October 19, 2018.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Electricity.Exports@hq.doe.gov](mailto:Electricity.Exports@hq.doe.gov), or by facsimile to 202–586–8008.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the United States Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On September 10, 2018, DOE received an application from Saavi Energy Solutions for authority to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities.

In its application, Saavi Energy Solutions states that it “does not own any electric generation or transmission facilities and . . . does not hold a franchise or service territory or native load obligation.” The electric energy that Saavi Energy Solutions proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order No. 10,485, as amended by Executive Order No. 12,038, and are appropriate for open access transmission by third parties.

**Procedural Matters:** Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC's) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five (5) copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning Saavi Energy Solutions' application to export electric energy to Mexico should be clearly marked with OE Docket No. EA–461. An additional copy is to be provided to both Esmeralda Viramontes Mayorga, Saavi Energy Solutions, LLC, Miguel de Cervantes Saavedra 301, Torre Norte, Piso 11, Colonia Granada, Delegación Miguel Hidalgo, Ciudad de México, México C.P. 11520 and Tracey L. Bradley, Bracewell LLP, 2001 M Street NW, Suite 900, Washington, DC 20036.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.
