*Abstract:* The Trends in International Mathematics and Science Study

(TIMSS) is an international assessment of fourth and eighth grade students' achievement in mathematics and science. Since its inception in 1995, TIMSS has continued to assess students every 4 years, with the next TIMSS assessment, TIMSS 2019, being the seventh iteration of the study. TIMSS provides a comparison of U.S. student performance with those of their international peers in mathematics and science at grades 4 and 8. TIMSS is coordinated by the International Association for the Evaluation of Educational Achievement (IEA), an international collective of research organizations and government agencies that creates the assessment framework, assessments, and background questionnaires and provides procedures and technical standards which all countries must follow. In the U.S., the National Center for Education Statistics (NCES) conducts TIMSS. In preparation for the TIMSS 2019 main study, NCES conducted a field test in 2018 to evaluate new assessment items and background questions, to ensure practices that promote low exclusion rates, and to ensure that classroom and student sampling procedures proposed for the main study are successful. The request for the TIMSS 2019 Main Study recruitment & Field Test was approved in July 2017 with the latest change request approved in July 2018 (OMB# 1850-0695 v.10-13). The U.S. TIMSS 2019 main study recruitment began in May 2018, and data collection is scheduled to take place from April through May 2019. This request is to conduct the TIMSS 2019 Main Study. TIMSS 2019 results will be posted on NCES website.
