SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 106–181 (Apr. 5, 2000; 114 stat. 61), this notice must be published in the **Federal Register** 30 days before the Secretary may waive any condition imposed on a federally obligated airport by surplus property conveyance deeds or grant agreements. The following is a brief overview of the request.

The county of Suffolk requested a release from grant assurance obligations to allow a land-use change in use for other than aeronautical purposes of approximately 25.8 acres of airport property at Francis S. Gabreski Airport. In 1969, the Suffolk County Air Force Base was deactivated. The land was transferred to Suffolk County in 1972 via a Quitclaim Deed under the provisions of the Federal Property and Administrative Services Act of 1949 and the Surplus Property Act of 1944. The Quitclaim Deed contained a National Emergency Use Provision (NEUP) allowing the United States of America the right to make use of the land during any national emergency as declared by the President or Congress. FAA approval of this request is contingent on the Department of Defense's concurrence that the 25.8 acres of airport property is no longer required for aeronautical purposes. Since 1943, the land in question has not been required for aviation, or other government use, and is currently vacant.

Suffolk County entered into a long-term lease agreement, contingent upon FAA final approval, with a solar power company after a competitive bidding process. The solar installation would consist of an 18.1-acre site on the north side of the airport and a 7.7-acre site on the south side of the airport. The FAA

has studied both sites and determined the installations will not impact the utility of the airport.

The airport will retain ownership of the 25.8 acres and will receive fair market value rent for the length of the agreement. The rental income will be devoted to airport operations and capital projects. The proposed use of the property will not interfere with the airport or its operation; and will thereby, serve the interests of civil aviation.

Issued in Jamaica, New York, on September 13, 2018.

Sukhbir Gill,

Acting Manager, New York Airports District Office.
