POLICY JUSTIFICATION

Mexico—Evolved Seasparrow Missiles

The Government of Mexico has requested to buy six (6) Evolved Seasparrow tactical missiles (ESSM) and two (2) Evolved Seasparrow telemetry missiles. Also included are one (1) MK56 VLS launcher (8-cell), eight (8) MK30 canisters, eight (8) MK783 shipping containers, spare and repair parts, support and test equipment, publications and technical documentation, training, USG/ Contractor technical and engineering support services, and technical assistance. The total estimated value is \$41 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a strategic regional partner. The sale of these shipboard systems to Mexico will significantly increase and strengthen Mexico's maritime capabilities. Mexico intends to use these defense articles and services to modernize its armed forces and expand its existing naval and maritime support of national security requirements.

Mexico intends to use the weapons systems on its Sigma 10514 Class ship. The systems will provide enhanced capabilities in effective defense of critical sea lanes. The proposed sale of these systems and support services will increase the Mexican Navy's maritime partnership potential and align its capabilities with existing regional navies. Mexico has not purchased these systems previously. Mexico will have no difficulty integrating this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems, Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and/or contractor representatives to Mexico.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 18–29

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Item No. vii

(vii) *Sensitivity of Technology*:

1. The sale of Evolved Seasparrow missiles (ESSM) under this FMS case will result in the transfer of classified missile equipment to Mexico. Both classified and unclassified defense equipment and technical data will be transferred. The missile includes the guidance section, warhead section, transition section, propulsion section, control section and Thrust Vector Control (TVC) of which the guidance section and transition section are classified CONFIDENTIAL. Standard missile documentation to be provided under this FMS case will include:

- a. Parametric documents (CONFIDENTIAL)
- b. Missile Handling/Maintenance Procedures (UNCLASSIFIED)
- c. General Performance Data (CONFIDENTIAL)
- d. Firing Guidance (CONFIDENTIAL)
- e. Dynamics Information (Confidential)

2. The sale of the Evolved Seasparrow Missiles (ESSM) under this FMS case will result in the transfer of sensitive technological information and/or restricted information contained in the missile guidance section. Certain operating frequencies and performance characteristics are classified SECRET because it could be used to develop tactics and/or countermeasures to reduce or defeat the missile effectiveness.

3. If a technologically advanced adversary were to obtain knowledge of

the specific hardware and software elements, primarily performance characteristics, engagement algorithms, and transmitter specific frequencies, the information could be used to develop countermeasures that might reduce weapon system effectiveness.

4. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Mexico.

POLICY JUSTIFICATION

Kuwait—AGM-114R Hellfire Missiles

The Government of Kuwait has requested to buy three hundred (300) AGM-114R Hellfire missiles, one (1) Warhead Section Assembly and one (1) Rocket Motor. Also included in the sale are missile containers, nineteen (19) M261 2.75 tube rocket launchers, spare and repair parts, repair tools, personnel training, U.S. Government and contractor engineering, technical and logistical support services and other related elements of logistical and program support. The estimated cost is \$30.4 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a regional partner that is an important force for political stability and economic progress.

The proposed sale improves Kuwait's capability to meet current and future threats. Kuwait will use the missiles to strengthen its homeland defense. Kuwait currently has the Hellfire missiles in its inventory and will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately two U.S. Government or contractor representatives to travel to Kuwait for up to two weeks of training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 18-11

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. AGM-114R Hellfire. The AGM-114R is used against heavy and light armored targets, thin skinned vehicles, urban structures, bunkers, caves and personnel. The missile is Inertial Measure Unit (IMU) based, with a variable delay fuse, improved safety and reliability. The highest level for release of the AGM-114R is SECRET. Software and firmware documentation (e.g. Data Processing, Software Requirements, Source Code, Algorithms) are not authorized for disclosure. The highest level of classified information that could be disclosed by a proposed sale or by testing of the end item is up to and including SECRET. The highest level that must be disclosed for production, maintenance, or training is up to and including SECRET. Vulnerability data, countermeasures, vulnerability/susceptibility analysis, and threat definitions are classified SECRET or CONFIDENTIAL. Detailed information to include discussions, reports and studies of system capabilities, vulnerabilities and limitations that leads to conclusions on specific tactics or other counter-countermeasures (CCM) are not authorized for disclosure. Reverse engineering could reveal SECRET information. Loss or compromise of classified information associated with AGM-114R could lead to development of countermeasures or exploitation of system vulnerabilities by those obtaining the information.

2. Software, hardware, and other data/information, which is classified or sensitive, is reviewed prior to release to protect system vulnerabilities, design data, and performance parameters. Some end item hardware, software, and other data identified above are classified at CONFIDENTIAL and SECRET levels. Potential compromise of these systems is controlled through management of the basic software programs of highly sensitive systems and software controlled weapon systems on a case-by-case basis.

3. If a technologically advanced adversary obtained knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Kuwait can provide substantially the same degree of protection for the AGM-114R Hellfire Missiles as the U.S. Government. The sale of these missiles to Kuwait is necessary in the furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification.

5. All defense articles and services listed on this transmittal are authorized for release and export to the Government of Kuwait.
