SUPPLEMENTARY INFORMATION: On January 26, 2017, TransCanada Keystone Pipeline, L.P. (TransCanada) resubmitted its 2012 Presidential permit application for the border facilities for the proposed Keystone XL pipeline. The Under Secretary of State for Political Affairs determined that issuance of a Presidential permit to TransCanada to construct, connect, operate, and maintain pipeline facilities at the northern border of the United States to transport crude oil from Canada to the United States would serve the national interest. Accordingly, on March 23, 2017, the Under Secretary issued a Presidential permit to TransCanada for the Keystone XL Pipeline border facilities. Subsequently, on November 20, 2017, the Nebraska Public Service Commission approved the Mainline Alternative Route for that pipeline in the State of Nebraska. TransCanada's application to the Bureau of Land Management for a right-of-way remains pending with that agency.

On May 25, 2018, the Department issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Keystone XL Pipeline Mainline Alternative Route in Nebraska* (83 FR 24383), which provided for a 30-day public scoping period. On July 30, 2018, the Department issued a *Notice of Availability of the Draft Environmental Assessment for the Proposed Keystone XL Pipeline Mainline Alternative Route in Nebraska* (83 FR 36659), which provided for a 30-day public comment period. On September 17, 2018, the Department issued a *Notice of Intent to Prepare a Supplemental Environmental Impact Statement for the Proposed Keystone XL Pipeline Mainline Alternative Route in Nebraska* (83 FR 46989). The Department will consider comments received during the Draft Environmental Assessment comment period in the Final SEIS document.
