

expansion of the San Ysidro LPOE in three independent phases to improve overall capacity and operational efficiency at the LPOE. The San Ysidro LPOE is located along Interstate 5 (I-5) at the U.S.-Mexico border in the San Ysidro community of the City of San Diego, California.

GSA is proposing the following changes to the Approved Project: A redesign of the proposed pedestrian plaza on the east side of the LPOE. The pedestrian plaza would be expanded to the north to include an additional parcel adjacent to the LPOE. GSA proposes acquisition of the adjacent 0.24-acre parcel to the north that contains two commercial buildings and incorporation of this parcel (Additional Land Area) into the pedestrian plaza. In addition to these proposed changes to the Approved Project, the Revised Project also includes the other components of the Approved Project that have not changed.

The changed circumstances associated with the Approved Project include new information regarding the condition of existing structures adjacent to the LPOE that affect the ability of GSA to implement the Approved Project. The Approved Project anticipated that construction of the pedestrian plaza would require demolition of the existing Milo Building within the LPOE. During final design, it was discovered that two existing buildings adjacent to the Milo Building on the Additional Land Area would likely collapse when the Milo Building is removed. The condition of these adjacent buildings was not known at the time the 2009 Final EIS or 2014 Final SEIS were prepared and this changed circumstance has bearing on the ability to implement the Approved Project.

Due to the changed circumstances and changes to the Approved Project, GSA made the decision to prepare an SEIS for the Revised Project. The purpose of the Revised Project is the same as the Approved Project that was identified in the 2009 Final EIS and 2014 Final SEIS. The purpose of the Revised Project is to improve operational efficiency, security, and safety for cross-border travelers and federal agencies at the San Ysidro LPOE.

The Draft SEIS analyzes two alternatives of the Revised Project, as well as the No Action Alternative. Both of the Action Alternatives include the proposed modifications described above, as well as the other improvements originally proposed as part of the Approved Project.

Alternative 1 would include demolition of the two existing buildings within the Additional Land Area that would be added to the LPOE and incorporated

into the pedestrian plaza. Alternative 2 would involve renovation/adaptive reuse of the existing buildings on the Additional Land Area that would be added to the LPOE and incorporated into the design of the pedestrian plaza and LPOE. Under the No Action Alternative, GSA would continue to implement the Approved Project except that the Milo Building would not be demolished.
