Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited

off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable the EPA to properly determine whether the State's program meets the requirements of § 3006 of RCRA. A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying the EPA of the proposed transfer, as required by section 271.23. Further, the EPA may withdraw a State's authorized program under section 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as the EPA determines to be necessary. The State shall inform the EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify the EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under § 3006(a). The EPA will use the information submitted by the State in

order to determine whether the State's program meets the statutory and regulatory requirements for authorization.

Form numbers: None.

Respondents/affected entities: State/territorial governments.

Respondent's obligation to respond: Mandatory (RCRA § 3006(a)).

Estimated number of respondents: 50.

Frequency of response: Annual.

Total estimated burden: 9,996 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$386,618 (per year), includes \$386,618 in annualized labor and \$0 in annualized capital or operation & maintenance costs.

Changes in the estimates: There is decrease of 3,864 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to the decrease in the number of States revising their base RCRA programs from 10 to 6.

Director, Regulatory Support Division.
