*Abstract:* The Environmental Protection Agency (EPA) is seeking renewal of a generic information collection request (ICR) for the conduct of focus groups and one-on-one interviews primarily related to survey development for economics projects. Focus groups are groups of individuals brought together for moderated discussions on a specific topic or issue. These groups are typically formed to gain insight and understanding of attitudes and perceptions held by the public surrounding a particular issue. One-on-one interviews, as the term implies, are individual interviews in which a respondent is generally asked to review materials and provide feedback on their content and design as well as the thought processes that the materials invoke. Focus groups and one-on-one interviews (referred to collectively as "focus groups") used as a qualitative research tool have three major purposes:

- To better understand respondents' attitudes, perceptions and emotions in response to specific topics and concepts;
- to obtain respondent information useful for better defining variables and measures in later quantitative studies; and
- to further explore findings obtained from quantitative studies.

Through these focus groups, the Agency will be able to gain a more in-depth understanding of the public's attitudes, beliefs, motivations and feelings regarding specific issues and

will provide invaluable information regarding the quality of draft survey instruments. Focus group discussions are necessary and important steps in the design of a quality survey. The target population for the focus group discussions will vary by project, but will generally include members of the public. Participation in the focus groups will be completely voluntary. Each focus group will fully conform to federal regulations—specifically the Privacy Act of 1974 (5 U.S.C. 552a), the Hawkins-Stafford Amendments of 1988 (Pub. L. 100-297), and the Computer Security Act of 1987.

*Form numbers:* None.

*Respondents/affected entities:* Individuals.

*Respondent's obligation to respond:* Voluntary.

*Estimated number of respondents:* 864 (total) over three years or 288 per year.

*Frequency of response:* 1.

*Total estimated burden:* 1,728 hours total or 576 per year. Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$20,920 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in the estimates:* There is a decrease of 1,017 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is based on new estimates of projected use of this ICR for focus groups for the next three years provided by the program offices at EPA.

**Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Land Disposal Restrictions (Renewal)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Land Disposal Restrictions (EPA ICR No. 1442.23, OMB Control No. 2050-0085) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through September 30, 2018. Public comments were previously requested via the **Federal Register** on May 8, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
