Needs and Uses: The 2001 National Defense Authorization Act contains specific sections addressing patient safety in military and veterans' health care systems. This legislation states that the Secretary of Defense shall establish a patient care error reporting and management system to study occurrences of errors in patient care and that one purpose of the system should be to "identify systemic factors that are associated with such occurrences" and "to provide for action to be taken to correct the identified systemic factors" (Sec. 754, items b2 and b3). In addition, the legislation states that the Secretary shall "continue research and development investments to improve communication, coordination, and team work in the provision of health care". (Sec. 754, item d4).

In its ongoing response to this legislation and in support of its mission to "promote a culture of safety to eliminate preventable patient harm by engaging, educating and equipping patient-care teams to institutionalize evidence-based safe practices," the DoD Patient Safety Program plans to field the Department of Defense Patient Safety Culture Survey. The Culture Survey is based on the Department of Health and Human Services' Agency for Healthcare Research and Quality's validated survey instrument. The survey obtains MHS staff opinions on patient safety issues

such as teamwork, communications, medical error occurrence and response, error reporting, and overall perceptions of patient safety.

Average Burden per Response: 15 minutes.

Annual Burden Hours: 677.25.

Needs and Uses: The Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (FY11), Section 702, aligns TRICARE Program eligibility by providing a means to extend the age of eligibility of TRICARE dependents from age 21 or 23 up to age 26 to allow the purchase of extended dependent medical coverage across existing TRICARE program options (Select and Prime). This is consistent with the intent of the Patient Protection and Affordable Care Act, the implementing Health and Human Services regulations, and the limitations of Chapter 55 of Title 10. Section 702 allows qualified adult children not eligible for medical coverage at age 21 (23 if enrolled in a full-time course of study at an institution of higher learning approved by the Secretary of Defense) and are under age 26 to qualify to purchase medical coverage unless the dependent is enrolled in or eligible to purchase employer sponsored insurance per section 5000A(f)(2) of the Internal Revenue Code of 1986 or is married.
