3. Update on ongoing research from NOAA Fisheries’ Southeast Fisheries Science Center.

4. Update on the Southeast Reef Fish Survey results from the 2018 sampling year.

5. Review revised Marine Recreational Information Program (MRIP) recreational catch estimates for Council managed stocks and consider approaches for revising Acceptable Biological Catch (ABC) recommendations for unassessed stocks.

6. Review the revised SEDAR assessments for Vermilion Snapper, Black Sea Bass, Bluefin Tuna, and Red Grouper using the revised MRIP catch data; apply the ABC Control Rule and provide fishing level recommendations; and discuss uncertainties and changes due to revised MRIP numbers.

7. Review the ABC Control Rule Amendment and analyses, including example application of risk tolerance levels.

8. Review the methodology for a new bag and size limit analysis and the findings of the workshop; discuss uncertainties and determine if this analysis is best scientific information available and useful for management.

9. Consider forming a workgroup for the SSC to provide input on the South Atlantic Ecosystem Model.

10. Receive updates and progress reports on ongoing Council amendments and activities.

The meeting is open to the public and will also be available via webinar as it occurs. Webinar registration is required. Information regarding webinar registration will be posted to the Council’s website at: http://safmc.net/safmc-meetings/scientific-and-statistical-committee-meetings/ as it becomes available. The meeting agenda, briefing book materials, and online comment form will be posted to the Council’s website two weeks prior to the meeting. Written comment on SSC agenda topics is to be distributed to the Committee through the Council office, similar to all other briefing materials. Written comment to be considered by the SSC shall be provided to the Council office no later than one week prior to an SSC meeting. For this meeting, the deadline for submission of written comment is 12 p.m., Monday, October 8, 2018.

Multiple opportunities for comment on agenda items will be provided during SSC meetings. Open comment periods will be provided at the start of the meeting and near the conclusion. Those interested in providing comment should indicate such in the manner requested by the Chair, who will then recognize individuals to provide comment. Additional opportunities for comment on specific agenda items will be provided, as each item is discussed, between initial presentations, and SSC discussion. Those interested in providing comment should indicate such in the manner requested by the Chair, who will then recognize individuals to provide comment. All comments are part of the record of the meeting.

Although non-emergency issues not contained in the meeting agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see ADDRESSES) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) established a Work Sharing Pilot Program in conjunction with the Japan Patent Office (JPO) and the Korean Intellectual Property Office (KIPO) to study how the exchange of search results between offices for corresponding counterpart applications improves patent quality and facilitates the examination of patent applications in both offices. Under this Work Sharing Pilot Program, two Collaborative Search Pilot (CSP) programs—USPTO–JPO and USPTO–KIPO—have been implemented. Through their respective CSP(s), each office concurrently conducts searches on corresponding counterpart applications. Each office’s search results are exchanged following these concurrent searches, which provides examiners with a comprehensive set of art before them at the commencement of examination.

Work sharing between Intellectual Property (IP) offices is critical for increasing the efficiency and quality of patent examination worldwide. The exchange of information and documents between IP offices also benefits applicants by promoting compact prosecution, reducing pendency, and supporting patent quality by reducing the likelihood of inconsistencies in patentability determinations among IP offices when considering corresponding counterpart applications. The gains in efficiency and quality are achieved through a collaborative work sharing approach to the evaluation of patent claims. As a result of this exchange of search reports, the examiners in both offices may have a more comprehensive set of references before them when making an initial patentability determination.

II. Method of Collection

The forms associated with this collection may be downloaded from the USPTO website in Portable Document Format (PDF) and filled out electronically. Requests to participate in the International Work Sharing Program must be submitted online using EFS-Web, the USPTO’s web-based electronic filing system.

III. Data

OMB Number: 0651–0079.
IC Instruments and Forms: PTO/SB/437, PTO/SB/CSP Survey 1.
Type of Review: Revision of an Existing Information Collection.
Affected Public: Individuals or households; businesses or other for-profits; and not-for-profit institution.
Estimated Number of Respondents: 300 responses per year. The USPTO estimates that 100 percent of the annual responses for this collection will be submitted electronically via EFS-Web, which customers may access through the USPTO website.

Estimated Time per Response: The USPTO estimates that it will take the public approximately between 5 minutes (0.08 hours) and 3 hours to complete the information in this collection, including the time to gather the necessary information, prepare the forms or documents, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 462 hours.

Estimated Total Annual Respondent (Hourly) Cost Burden: $202,356. The USPTO expects that an attorney's hourly rate for intellectual property attorneys in private firms is $436. Using this hourly rate, the USPTO estimates that the total respondent cost burden for this collection is $202,356.00 per year.

### Estimated Total Annual (Non-hour) Respondent Cost Burden: $0. There are no estimated filing fees or postage costs for this collection.

### IV. Request for Comments

Submission for OMB Review; Comment Request; “Fee Deficiency Submissions”

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Title: Fee Deficiency Submissions.

OMB Control Number: 0651–0070.

Type of Request: Regular.

Number of Respondents: 2,500 responses per year.

Average Hours per Response: 2 hours per response.

Burden Hours: 5,000 hours annually.

Cost Burden: $335.00.

Needs and Uses: The Leahy-Smith America Invents Act (“Act”) was enacted into law on September 16, 2011. See Public Law 112–29, 125 Stat. 283 (2011). Under section 10(b) of the Act, eligible small entities shall receive a 50 percent fee reduction from the undiscounted fees for filing, searching, examining, issuing, appealing, and maintaining patent applications and patents. The Act further provides that micro entities shall receive a 75 percent fee reduction from the undiscounted fees for filing, searching, examining, issuing, appealing, and maintaining patent applications and patents.

This information collection covers the submissions made by patent applicants and patentees to excuse small and micro entity fee payment errors, in accordance with the procedures set forth in 37 CFR 1.28(c) and 1.29(k). Specifically, 37 CFR 1.28(c) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the small entity amount. 37 CFR 1.29(k) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the micro entity amount.

This information collection is necessary so that patent applicants and patentees may pay the balance of fees due (i.e., make a fee deficiency payment) when a fee was previously paid in error in a micro or small entity amount. The USPTO needs the information to be able to process and properly record a fee deficiency payment to avoid questions arising later either for the USPTO or for the applicant or patentee as to whether the proper fees have been paid in the application or patent. This renewal seeks to extend the authority of USPTO to collect the balance of fees due from those who may have such an outstanding balance (i.e., a fee deficiency).

Affected Public: Businesses or other for-profits; not-for-profit institutions.

Frequency: On occasion.

Respondent’s Obligation: Required to obtain or retain benefits.

OMB Desk Office: Nicholas A. Fraser, email: Nicholas_A_Fraser@omb.eop.gov.

Once submitted, the request will be publicly available in electronic format through reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.
