SUPPLEMENTARY INFORMATION:

Title: Uniform Grant Application Package for Discretionary Grant Programs.

Form Number: FNS 908 and FNS 887.

OMB Number: 0584-0512.

Expiration Date: March 31, 2019.

Type of Request: Revision of a currently approved collection.

Abstract: FNS has a number of discretionary grant programs.

(Consistent with the definition in 2 CFR part 200, the term “grant” as used in this notice includes cooperative agreements.) The authorities for these grants vary and will be cited as part of each grant application solicitation. The purpose of the revision to the currently approved collection for the Uniform Grant Application Package for Discretionary Grant Programs is to continue the authority for the established uniform grant application package and to update the number of collection burden hours. The uniform collection package is useable for all of FNS’ discretionary grant programs to collect information from grant applicants that are needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All FNS discretionary grant programs will be eligible but not required, to use the uniform grant application package. Before soliciting applications for a discretionary grant program, FNS will decide whether the uniform grant application package will meet the needs of that grant program. If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish a notice soliciting comments on its proposal to collect different or additional information before making the grant solicitation.

The uniform grant application package will include: General information and instructions; a checklist; a requirement for the program narrative statement describing how the grant goals and objectives will be reached; the Standard Form (SF) 424 series forms that request basic grant project information, budget information, and a disclosure of lobbying activities certification; the Grant Program

Accounting System and Financial Capability Questionnaire, used to evaluate potential grantee risk; and the Standardized Performance Progress Report. The proposed information collection covered by this notice is related to the requirements for the program narrative statement. The requirements for the program narrative statement described in 2 CFR part 200, Appendix I and will apply to all types of grantees—State and Local governments, Indian Tribal organizations, Non-Profit organizations, Institutions of Higher Education, and For-Profit organizations. The information collection burden related to the SF-424 series, and the lobbying certification forms have been separately approved by OMB.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Affected Public: State and local governments, Indian Tribal organizations, Non-Profit organizations, Institutions of Higher Education, and For-Profit organizations. The estimates include the total annual estimates with a final seeking three-year burden upfront for this generic request.
