

ENVIRONMENTAL PROTECTION AGENCY**[FRL-9985-31-REGION 3]****Notice of Tentative Approval and Opportunity for Public Comment and Public Hearing for Public Water System Supervision Program Revision for Pennsylvania****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of approval and solicitation of requests for public hearing.

SUMMARY: Notice is hereby given that the Commonwealth of Pennsylvania is revising its approved Public Water System Supervision Program. Pennsylvania has adopted drinking water regulations for the Revised Total Coliform Rule. The U.S. Environmental Protection Agency (EPA) has determined that Pennsylvania's Revised Total Coliform Rule meets all minimum federal requirements, and that it is no less stringent than the corresponding federal regulation. Therefore, EPA has tentatively decided to approve the State program revisions.

DATES: Comments or a public hearing must be submitted by November 13, 2018. This determination shall become final and effective on November 13, 2018. If no timely and appropriate request for a hearing is received, and the Regional Administrator does not elect to hold a hearing on his own motion, and if no comments are received which cause EPA to modify its tentative approval.

ADDRESSES: Comments or a request for a public hearing must be submitted to the U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103-2029. All documents relating to this determination are available for inspection between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, at the following offices:

- Drinking Water Branch, Water Protection Division, U.S. Environmental Protection Agency Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.
- Bureau of Safe Drinking Water, Pennsylvania Department of Environmental Protection, P.O. Box 2063, Harrisburg, Pennsylvania 17105-2063.

FOR FURTHER INFORMATION CONTACT: Kelly Moran, Drinking Water Branch (3WP21) at the Philadelphia address given above, via email at moran.kelly@epa.gov, or telephone (215) 814-2331 or fax (215) 814-2302.

SUPPLEMENTARY INFORMATION: All interested parties are invited to submit written comments on this determination and may request a hearing. All comments will be considered, and if necessary EPA will issue a response. Frivolous or insubstantial requests for a hearing will be denied by the Regional Administrator. If a substantial request for a public hearing is made by November 13, 2018, a public hearing will be held. A request for public hearing shall include the following: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) a brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and (3) the signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Dated: September 24, 2018.

Cosmo Servidio,
Regional Administrator.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Hazardous Waste Combustors (EPA ICR Number 1773.12, OMB Control Number 2050-0171), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through October 31, 2018. Public comments were previously requested via the **Federal Register** on July 3, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden

and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 13, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2018-0130, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Hazardous Waste Combustors (40 CFR part 63, subpart EEE) apply to the following types of new and existing combustion units that burn hazardous waste: Incinerators, cement kilns, lightweight aggregate kilns, solid fuel boilers, liquid fuel boilers, and hydrochloric acid production facilities. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/

operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of hazardous waste combustors.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart EEE).

Estimated number of respondents: 180 (total).

Frequency of response: Initially, occasionally, semiannually, and quarterly.

Total estimated burden: 62,500 hours (per year). Burden is defined as 5 CFR 1320.3(b).

Total estimated cost: \$9,560,000 (per year), which includes \$2,890,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The adjustment decrease in burden is due to a decrease in the number of respondents based on more accurate estimates of the number of existing and new respondents as provided by the Agency and industry consultations. The decrease in burden is also a result of the removal of burden items related to requirements that are not associated with the standard, testing and installation activities that are not information collection activities, submittal of certain conditional or optional information that is not required by the rule, and one-time activities that have been completed. These changes are further discussed below. These changes also result in an adjustment decrease in the number of responses. The number of responses also reflects updates to clarify those responses related to reporting and that related to recordkeeping activities where reports are not submitted.

There is an adjustment increase in the total capital and O&M costs based on the revised estimates of the number of new respondents. As discussed below, because this ICR assumes one new HWC unit per year, we have included capital and O&M costs for CO and O₂ CEMS, PM CEMS, COMs, and CMS. These items were not included in the previously approved ICR because it was assumed that existing sources had the

equipment required to meet the standard already installed.

Courtney Kerwin,

Director, Regulatory Support Division.

Abstract: The EPA is required under section 183(e) of the Clean Air Act (CAA) to regulate volatile organic compound (VOC) emissions from the use of consumer and commercial products. Pursuant to CAA section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Aerosol coatings are included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart E. The reports required under the standards enable the EPA to identify coating formulations manufactured, imported, or distributed in the United States, and to determine the product-weighted reactivity. The ICR addresses the burden for activities conducted in 3-year increments after promulgation of the National VOC Emission Standards for Aerosol Coatings. Regulated entities read instructions to determine how they are affected by the rule. They are required to submit initial notifications when an aerosol coating is manufactured and notification of changes in the initial report, to report formulation data and exemptions claimed, and to maintain records. In addition, regulated entities are required to submit triennial reports that include formulation data and VOC usage.

Form Numbers: None.

Respondents/affected entities: Manufacturers, distributors, and importers of aerosol coatings (North American Industry Classification
