Background

On February 6, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Planned Northern Lights 2019 Expansion Project and Request for Comments on Environmental Issues* (NOI). The NOI addressed both the Northern Lights 2019 Expansion and the Rochester Project components, and was issued during the pre-filing review of the projects in Docket No. PF18-1-000 and was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers.

In response to the NOI, the Commission received comments from the U.S. Fish and Wildlife Service, U.S. Department of Agriculture, U.S. Environmental Protection Agency, Minnesota Department of Natural Resources, Minnesota Pollution Control Agency, Minnesota State Historic Preservation Office; one Native American tribe; ten landowners; and one public interest group. The primary issues raised by the commentors were karst terrain, groundwater, surface waterbodies, special status species, property values, local economy, land

use, and air quality and noise impacts from construction and operation of pipeline facilities. All substantive comments will be addressed in the EA.

The Minnesota Pollution Control Agency is a cooperating agency in the preparation of the EA.
