SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0625.

Title: Section 24.103, Construction requirements.

Form No.: N/A.

Type of Review: Extension of a currently-approved collection.

Respondents: Business or other for-profit, individuals or household, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 9 respondents and 20 responses.

Estimated Time per Response: 3 hours.

Frequency of Response:

Recordkeeping requirement, On occasion reporting requirement, 5 and 10 year reporting requirements.

Obligation to Respond: To ensure that licensees timely construct systems that either provide coverage to minimum geographic portions of their licensed areas, that provide service to minimum percentages of the population of those

areas, or that, in the alternative, provide service that is sound, favorable, and substantially above a level of mediocre service that would barely warrant renewal.

Total Annual Burden: 23 hours.

Annual Cost Burden: \$12,375.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality:

There are no requests of a sensitive nature considered, or those considered a private matter, being sought from the applicants on this collection.

Needs and Uses: The information collection requirements contained in Section 24.103 require that certain narrowband PCS licensees notify Commission at specific benchmarks that they are in compliance with applicable construction requirements in order to ensure that these licensees quickly construct their systems and that, with those systems, they provide, within their respective licensed areas: coverage to minimum geographic areas, service to minimum percentages of the population, or "substantial service" within ten years after license grant. The Commission is not currently collecting information from narrowband PCS licensees under Section 24.103 and does not expect to do so during the three year period for which it seeks extension of its current collection authority under that section. However, following the future auction of new narrowband PCS licenses, the reporting and recordkeeping requirements under this section will be used to satisfy the Commission's rule that such licensees demonstrate compliance with these construction requirements by the 5 and 10-year benchmarks established upon the grant date of each license. Without this information, the Commission would not be able to carry out its statutory responsibilities.

Needs and Uses: The following is a summary of each rule section which contains information collection requirements for which the Commission seeks continued approval from the Office of Management and Budget (OMB):

(a) Section 73.3700(e)(2) requires all broadcast television station licensees and multichannel video programming distributors (MVPDs) that are eligible to receive payment of relocation costs to file an estimated cost form providing an estimate of their reasonably incurred relocation costs no later than three months following the release of the Channel Reassignment Public Notice. If a broadcast television station licensee or MVPD seeks reimbursement for new equipment, it must provide a justification as to why it is reasonable under the circumstances to purchase new equipment rather than modify its corresponding current equipment in order to change channels or to continue to carry the signal of a broadcast television station that changes channels. Entities that submit their own cost estimates, as opposed to the predetermined cost estimates provided in the estimated cost form, must submit supporting evidence and certify that the estimate is made in good faith. Entities must also update the form if circumstances change significantly.

(b) Section 73.3700(e)(3) requires all broadcast television station licensees and MVPDs that received an initial allocation from the TV Broadcaster Relocation Fund, upon completing construction or other reimbursable changes, or by a specific deadline prior to the end of the Reimbursement Period to be established by the Media Bureau, whichever is earlier, to provide the Commission with information and documentation, including invoices and receipts, regarding their actual expenses incurred as of a date to be determined by the Media Bureau. If a broadcast television station licensee or MVPD has not yet completed construction or other reimbursable changes by the Final Allocation Deadline, it must provide the Commission with information and documentation regarding any remaining

eligible expenses that it expects to reasonably incur.

(c) Section 73.3700(e)(4) requires broadcast television station licensees and MVPDs that have received money from the TV Broadcaster Relocation Fund, after completing all construction or reimbursable changes, to submit final expense documentation containing a list of estimated expenses and actual expenses as of a date to be determined by the Media Bureau. Entities that have finished construction and have submitted all actual expense documentation by the Final Allocation Deadline will not be required to file at the final accounting stage.

(d) Section 73.3700(e)(6) requires broadcast television station licensees and MVPDs that receive payment from the TV Broadcaster Relocation Fund to retain all relevant documents pertaining to construction or other reimbursable changes for a period ending not less than 10 years after the date on which it receives final payment from the TV Broadcaster Relocation Fund and to make available all relevant documentation upon request from the Commission or its contractor.
