SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request an extension of the current OMB approval to conduct a series of studies to research and evaluate how to improve data collection activities for data collection programs at the Census Bureau. These studies will explore how the Census Bureau can improve efficiency, data quality, and response rates and reduce respondent burden in future census and survey operations, evaluations and experiments.

This information collection will operate as a generic clearance. The estimated number of respondents and annual reporting hours requested cover both the known and yet to be determined tests. A generic clearance is needed for these tests because though each share similar methodology, the exact number of tests and the explicit details of each test to be performed has yet to be determined. Once information collection plans are defined, they will be submitted on an individual basis in order to keep OMB informed as these tests progress.

The Census Bureau plans to test the use of new and improved data collection techniques for self-

enumeration and interviewer data-collection tasks surrounding and following the ongoing census and survey operations. The research and evaluation may include: Developing alternative enumeration or follow-up questionnaires; usability issues; conducting interviews or debriefings; and non-English language training and interviews. To study enumeration, the Census Bureau may conduct the enumeration directly with a household member or knowledgeable respondent. The questions asked in these studies will be typical census or survey questions and questions related to that content, along with potential attitudinal and satisfaction debriefing questions.

II. Method of Collection

The information will be collected through observations, self-response, face-face interviews, and/or telephone interviews.

III. Data

OMB Control Number: 0607-0971.

Form Number: Not yet determined.

Type of Review: Regular submission.

Affected Public: Individuals or households.

Estimated Number of Respondents: 100,000 per year.

Estimated Total Annual Burden Hours: 16,667 hours annually.

Estimated Total Annual Cost: There is no cost to the respondent other than time to answer the information request.

Respondents Obligation: Mandatory or Voluntary, depending on cited authority.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the questionnaire being tested. This may be Title 13, Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau sponsored surveys, and Title 13 and 15 for surveys sponsored by other Federal agencies. We do not now know what other titles will be referenced, since we do not know what survey questionnaires will be pretested during the course of the clearance.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

The Petition

On September 20, 2018, the U.S. Department of Commerce (Commerce) received a countervailing duty petition (CVD Petition) concerning imports of refillable stainless steel kegs (kegs) from the People's Republic of China (China), filed in proper form on behalf of the American Keg Company LLC (the petitioner), a domestic producer of kegs.¹ The CVD Petition was accompanied by antidumping duty (AD) petitions concerning imports of kegs from China, Germany, and Mexico.

On September 25, 2018, Commerce requested supplemental information pertaining to certain aspects of the Petition in two separate supplemental questionnaires, one addressing the programs alleged as countervailable subsidies, and one primarily addressing scope clarification issues.² The petitioner filed additional information on September 27, 2018.³

In accordance with section 702(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that the Government of China (GOC) is providing countervailable subsidies, within the meaning of sections 701 and 771(5) of the Act, to producers of kegs in China and that imports of such products are materially injuring, or threatening material injury to, the domestic kegs industry in the United States. Consistent with section 702(b)(1) of the Act and 19 CFR 351.202(b), for those alleged programs on which we are initiating a CVD investigation, the Petition is accompanied by information

² See Commerce's Letters titled "Petition for the Imposition of Countervailing Duties on Imports of Refillable Stainless Steel Kegs from the People's Republic of China: Supplemental Questions," and "Petitions for the Imposition of Antidumping Duties on Imports of Refillable Stainless Steel Kegs from the People's Republic of China, the Federal Republic of Germany, and Mexico, and Countervailing Duty Imports from the People's Republic of China: Supplemental Questions," both dated September 25, 2018.

reasonably available to the petitioner supporting its allegations.

Commerce finds that the petitioner filed the Petition on behalf of the domestic industry because the petitioner is an interested party as defined in section 771(9)(E) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support necessary for the initiation of the requested CVD investigation.⁴

Period of Investigation

Because the Petition was filed on September 20, 2018, the period of investigation is January 1, 2017, through December 31, 2017.

Scope of the Investigation

The product covered by this investigation is kegs from China. For a full description of the scope of these investigations, see the Appendix to this notice.

Comments on the Scope of the Investigation

During our review of the Petition, we contacted the petitioners regarding the proposed scope to ensure that the scope language in the Petitions is an accurate reflection of the products for which the domestic industry is seeking relief.⁵ As a result, the scope of the Petitions was modified to clarify the description of merchandise covered by the Petitions. The description of the merchandise covered by these investigations, as described in the Appendix to this notice, reflects these clarifications.

As discussed in the Preamble to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (scope).⁶ Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determination. If scope comments include factual information,⁷ all such factual information should be limited to public information. To facilitate preparation of its questionnaires, Commerce requests that all interested parties submit such comments by 5:00 p.m. Eastern Time (ET) on October 30, 2018, which is 20 calendar days from the signature date of this notice.
