Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona); Cocopah Tribe of Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Hopi Tribe of Arizona; Pascua Yaqui Tribe of Arizona; Quechan Tribe of the Fort Yuma Indian Reservation, California & Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; Tohono O'odham Nation of Arizona; and the Zuni Tribe of the Zuni Reservation, New Mexico, hereafter referred to as "The Consulted Tribes."

##### History and Description of the Remains

In 1963, human remains representing, at minimum, one individual were removed by an unknown individual from an unrecorded site, designated AZ 2000-296, possibly located in the Tucson metropolitan area in Pima County, AZ. This collection was mailed anonymously to the University of Arizona, School of Anthropology from Florida in March 2000. The collection was subsequently brought to ASM. No known individuals were identified. The three associated funerary objects are one ceramic bowl, one ceramic jar, and one ceramic sherd. The human remains likely date to the Hohokam Classic period, A.D. 1150-1450, based on ceramic typology.

In 1992, human remains representing, at a minimum, one individual were removed from site AZ AA:12:252(ASM), located in the eastern portion of the Santa Cruz River flood plain in the Tucson Basin, in Pima County, AZ, during testing and data recovery carried out over the course of the Rillito-Toltec Loop Testing and Data Recovery Project. The project was conducted by Archeological Consulting Services under the direction of Barabara Macnider and David Gregory. The human remains were received by ASM in 1994. No known individuals were identified. No associated funerary objects are present. This site is described as a large, multi-component Hohokam sherd and lithic artifact scatter. Based on this description, these human remains date to around A.D. 450-1450, which encompasses the Hohokam cultural sequence.

In 1982, human remains representing, at a minimum, one individual were removed from site AZ AA:16:6(ASM), located west of the Santa Cruz River in the Tucson metropolitan area, Pima County, AZ, during survey and excavation work conducted by the University of Arizona, under the direction of Paul Fish. The human remains were not recognized at the time of the survey. After completion of the
