

authorize the negotiated terms of the transfer of each project or facility.

Eligibility for this CE would be determined by Reclamation, based on results of on-site inspections, surveys, and other methods of evaluation and documentation prepared by Reclamation to determine the presence or absence of the exceptions. To determine that a proposed title transfer fits within the CE, Reclamation would review the proposal to determine that all the following apply:

1. The Departmental extraordinary circumstances listed at 43 CFR 46.215 would not be triggered by the title transfer action.
 2. The title transfer action would not change:
 - a. Operation and maintenance of the facilities or lands transferred;
 - b. land or water use.
 3. The title transfer action would not involve any unresolved issue associated with compliance with interstate compacts and agreements; meeting the Secretary's Native American trust responsibilities; fulfilling treaty and international agreement obligations.
- Even for a title transfer action that meets these criteria, Reclamation may, within its discretion, decide to prepare an Environmental Assessment (EA) or an Environmental Impact Statement (EIS) instead of applying the CE.

Basis for Establishing the Categorical Exclusion

To date, Reclamation has prepared EAs and made findings of no significant impact (FONSI) on each of the eight projects shown below, indicating location and EA/FONSI date. These EAs and FONSIs substantiate Reclamation's record to demonstrate that no individually or cumulatively significant effects are typically attributable to the eligible types of activities that would be included in the proposed CE. The EA and FONSI documentation for the following projects is available at www.usbr.gov/title:

1. Clear Creek Unit, Central Valley Project, California, 1998.
2. Distribution System to Carpinteria Valley Water District, California, 2000.
3. Distribution System to the Montecito Water District, California, 2001.
4. Robert B. Griffith Water Project, Nevada, 2001.
5. McGee Creek, Oklahoma, 2006.
6. Newlands Project Headquarters and Maintenance Yard Conveyance, Nevada, 2007.
7. Arbuckle (partial), Oklahoma, 2014.
8. Water Distribution System to Goleta Water District, California, 2007 (transfer pending).

Reclamation has prepared two EISs on title transfer proposals and two EAs for projects that involved more complex actions than those that would meet the eligibility criteria. Reclamation has also prepared 12 EAs and FONSIs on title transfer proposals for which mitigation was applied to reduce impacts to less than significant. Several of these proposals involved issues of concern including sites of interest to tribal communities and adverse effects to historic properties.

The full complement of these EAs, FONSIs, and EISs and Reclamation's knowledge and experience contribute to the body of work Reclamation has used to analyze its title transfer actions and validate its definition of projects for which the proposed CE would be used. Based on the consideration of the types of projects that meet the eligibility and exception criteria above, Reclamation proposes to determine that this category of actions would not individually or cumulatively have a significant effect on the quality of the human environment.

Reclamation invites comments on this proposed CE and will consider all comments received. When Reclamation makes a determination on establishing a new CE, the new language would be incorporated into 516 DM 14 under internal Departmental administrative procedures. At that time, Reclamation intends to employ the same internal Departmental administrative procedures to make routine updates to the DM, including references to regulations and policies, organizational changes, and formatting.

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: History Colorado, formerly Colorado Historical Society, has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is no cultural affiliation between the human remains and any present-day Indian Tribes or Native Hawaiian organizations. Representatives of any Indian Tribe Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to History Colorado. If no

additional requestors come forward, transfer of control of the human remains to the Indian Tribes or Native Hawaiian organizations stated in this notice may proceed.

DATES: Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to History Colorado at the address in this notice by November 16, 2018.

ADDRESSES: Sheila Goff, NAGPRA Liaison, History Colorado, 1200 Broadway, Denver, CO 80203, telephone (303) 866-4531, email sheila.goff@state.co.us.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of History Colorado, Denver, CO. The human remains were removed from Montrose County, CO.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by History Colorado professional staff in consultation with representatives of the Arapaho Tribe of the Wind River Reservation, Wyoming; Cheyenne and Arapaho Tribes of Oklahoma (previously listed as the Cheyenne-Arapaho Tribes of Oklahoma); Eastern Shoshone Tribe of the Wind River Reservation, Wyoming (previously listed as the Shoshone Tribe of the Wind River Reservation, Wyoming); Jicarilla Apache Nation, New Mexico; Kiowa Tribe of Oklahoma; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Ohkay Owingeh, New Mexico (previously listed as the Pueblo of San Juan); Pueblo of Santa Clara, New Mexico; Rosebud Sioux Tribe of the Rosebud Indian Reservation, South Dakota; Shoshone-Bannock Tribes of the Fort Hall Reservation; Southern Ute Indian Tribe of the Southern Ute Indian Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; Ute Mountain Ute Tribe

(previously listed as the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah); and the Zuni Tribe of the Zuni Reservation, New Mexico. The Crow Creek Sioux Tribe of the Crow Creek Reservation, South Dakota; and the Pueblo of San Felipe, New Mexico were invited to consult, but did not participate. Hereafter, all the tribes listed above are referred to as "The Consulted and Invited Tribes."

History and Description of the Remains

In the 1930s or 1940s, human remains representing, at minimum, one individual were removed from an unspecified location in Paradox Valley, Montrose County, CO, by a private citizen. They were later passed on to other family members and in February 2018, the niece of the collector mailed them to the Office of the State Archeologist, where they are identified as Office of Archeology and Historic Preservation (OAH) Case Number 329. The Montrose County Coroner ruled out forensic interest in the human remains. Osteological analysis by Dr. Diane France of the Human Identification Laboratory of Colorado indicates that the human remains are of Native American ancestry and are archeological. No known individuals were identified. No associated funerary objects are present.

History Colorado, in partnership with the Colorado Commission of Indian Affairs, Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah, conducted tribal consultations among the tribes with ancestral ties to the State of Colorado to develop the process for disposition of culturally unidentifiable Native American human remains and associated funerary objects originating from inadvertent discoveries on Colorado State and private lands. As a result of the consultation, a process was developed, *Process for Consultation, Transfer, and Reburial of Culturally Unidentifiable Native American Human Remains and Associated Funerary Objects Originating From Inadvertent Discoveries on Colorado State and Private Lands*, (2008, unpublished, on file with the Colorado Office of Archeology and Historic Preservation). Pursuant to the Process, the tribes consulted are those who have expressed their wishes to be notified of discoveries in the Basin and Plateau Consultation Region, (which is where this individual originated).

The Native American Graves Protection and Repatriation Review Committee (Review Committee) is

responsible for recommending specific actions for disposition of culturally unidentifiable human remains. On November 3-4, 2006, the *Process* was presented to the Review Committee for consideration. A January 8, 2007, letter on behalf of the Review Committee from the Designated Federal Officer transmitted the provisional authorization to proceed with the *Process* upon receipt of formal responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma, subject to forthcoming conditions imposed by the Secretary of the Interior. On May 15-16, 2008, the responses from the Jicarilla Apache Nation, New Mexico, and the Kiowa Indian Tribe of Oklahoma were submitted to the Review Committee. On September 23, 2008, the Assistant Secretary for Fish and Wildlife and Parks, as the designee for the Secretary of the Interior, transmitted the authorization for the disposition of culturally unidentifiable human remains according to the *Process* and NAGPRA, pending publication of a Notice of Inventory Completion in the **Federal Register**. This notice fulfills that requirement.

43 CFR 10.11 was promulgated on March 15, 2010, to provide a process for the disposition of culturally unidentifiable Native American human remains recovered from tribal or aboriginal lands as established by the final judgment of the Indian Claims Commission or U.S. Court of Claims, a treaty, Act of Congress, or Executive Order, or other authoritative governmental sources. As there is no evidence indicating that the human remains reported in this notice originated from tribal or aboriginal lands, they are eligible for disposition under the *Process*.

Determinations Made by History Colorado

Officials of History Colorado have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry based on osteological analysis of the human remains.
- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian Tribe.
- Pursuant to 43 CFR 10.16 and the *Process*, the disposition of the human remains may be to the Southern Ute Indian Tribe of the Southern Ute Indian Reservation, Colorado, and the Ute Mountain Ute Tribe (previously listed as

the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah).

Additional Requestors and Disposition

Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Sheila Goff, NAGPRA Liaison, History Colorado, 1200 Broadway, Denver, CO 80203, telephone (303) 866-4531, email sheila.goff@state.co.us, by November 16, 2018. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado, and the Ute Mountain Ute Tribe (previously listed as the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah) may proceed.

History Colorado is responsible for notifying The Consulted and Invited Tribes that this notice has been published.

Dated: September 19, 2018.

Manager, National NAGPRA Program.
