SUPPLEMENTARY INFORMATION:

I. Background

OFCCP administers and enforces the three nondiscrimination and equal employment opportunity laws listed below:

- Executive Order 11246, as amended (E.O. 11246)
- Section 503 of the Rehabilitation Act of 1973, as amended (Section 503)
- Vietnam Era Veterans’ Readjustment Assistance Act of 1974, as amended (VEVRAA)

These authorities prohibit employment discrimination by covered federal contractors and subcontractors and require that they provide equal employment opportunities regardless of race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or status as a protected veteran. Additionally, federal contractors and subcontractors are prohibited from discriminating against applicants and employees for asking about, discussing, or sharing information about their pay or the pay of their co-workers. E.O. 11246 applies to federal contractors and subcontractors and to federally assisted construction contractors holding a Government contract in excess of $10,000, or Government contracts that have, or can reasonably be expected to have, an aggregate total value exceeding $10,000 in a 12-month period. E.O. 11246 also applies to government bills of lading, depositories of federal funds in any amount, and to financial institutions that are issuing and paying agents for U.S. Savings Bonds. Section 503 prohibits employment discrimination against applicants and employees because of physical or mental disability and requires affirmative action to ensure that persons are treated without regard to disability. Section 503 applies to federal contractors and subcontractors with contracts in excess of $15,000. VEVRAA prohibits employment discrimination against protected veterans and requires affirmative action to ensure that persons are treated without regard to their status as a protected veteran. VEVRAA applies to federal contractors and subcontractors with contracts of $150,000 or more. This collection will implement the LEAD award that will recognize federal contractor and subcontractor establishments that have developed and successfully implemented comprehensive equal employment opportunity and nondiscrimination programs.
II. Review Focus

OFCCP is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the compliance assistance functions of the agency that support the agency’s compliance mission, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations Part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor (Secretary) determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or
2. That the application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2018–008–M.

Mines: Columbia Plant, MSHA I.D. No. 38–00138, located in Lexington County, South Carolina.

Regulation Affected: 30 CFR 56.13020 (Use of compressed air).

Modification Request: The petitioner requests a modification of the existing standard to permit an alternative method that will provide no less a degree of safety than that provided by the standard.

The petitioner states that:

(1) The alternative method provides a direct reduction of miners’ exposure to respirable dust, thus reducing their health risks. The proposed alternative method has been jointly developed between Unimin Corporation and the National Institute of Occupational Safety and Health (NIOSH) and successfully tested by the NIOSH.

(2) The petition proposes the following:

—Only miners trained in the operation of the clothes cleaning booth will be permitted to use the booth to clean their clothes.

—Petitioner will incorporate the NIOSH Clothes Cleaning Process and manufacturer’s instruction manual into their MSHA Part 48 training plan and train affected miners in the process.

—Miners entering the booth will examine valves and nozzles for damage or malfunction and will close the door fully before opening the air
