

Dated: October 17, 2018.

Sandra Cashman,

Executive Secretary, Centers for Disease Control and Prevention.

[FR Doc. 2018-22991 Filed 10-19-18; 8:45 am]

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Mine Safety and Health Research Advisory Committee (MSHRAC)

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the CDC announces the following meeting for the Mine Safety and Health Research Advisory Committee (MSHRAC). This meeting is open to the public, limited only by the space available. The meeting room accommodates approximately 38 people. If you wish to attend in person or by phone, please contact Marie Chovanec by email at MChovanec@cdc.gov or by phone at 412-386-5302 at least 5 business days in advance of the meeting.

DATES: The meeting will be held on November 29, 2018, 8 a.m.–4 p.m., MST and on November 30, 2018, 8 a.m.–12 p.m. MST.

ADDRESSES: University of Arizona, ENR2 Building, Room S215, 1064 E. Lowell Street, Tucson, AZ 85721 United States.

FOR FURTHER INFORMATION CONTACT: Jeffrey H. Welsh, Designated Federal Officer, MSHRAC, NIOSH, CDC, 626 Cochran Mill Road, Pittsburgh, PA 15236, telephone 412-386-4040; email juw5@cdc.gov.

SUPPLEMENTARY INFORMATION:

Purpose: This committee is charged with providing advice to the Secretary, Department of Health and Human Services; the Director, CDC; and the Director, NIOSH, on priorities in mine safety and health research, including grants and contracts for such research, 30 U.S.C. 812(b)(2), Section 102(b)(2).

Matters to be Considered: The agenda will include discussions on mining safety and health research projects and outcomes, including real-time DPM monitor; industrial minerals sector research priorities; MSHRAC metal mine automation workgroup report; cemented backfill research; recent research in coal mine explosion and fire prevention; engaging in the miner

health program; stability evaluation of active gas wells in longwall abutment pillars; and durable support for western US underground metal mines. The meeting will also include updates from the NIOSH Associate Director for Mining, the Spokane Mining Research Division, and the Pittsburgh Mining Research Division. Agenda items are subject to change as priorities dictate.

The Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Sherri Berger,

Chief Operating Officer, Centers for Disease Control and Prevention.

[30Day-19-18UF]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Assessment of Evidence to Inform Standards that Ensure Turnout Gear Remains Protective Throughout Its Lifecycle to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on April 12, 2018 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Evidence to Inform Standards that Ensure Turnout Gear Remains Protective Throughout Its Lifecycle—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Turnout gear is a type of personal protective equipment used by the 1.1 million U.S. fire fighters to shield the body from carcinogens, flames, heat, and chemical/biological agents. It serves as a barrier to external hazards while simultaneously allowing for the escape of metabolic heat to prevent elevated core body temperatures. To provide the necessary performance characteristics, turnout gear design is complex, consisting of three major layers that work as a composite—a thermal liner, a moisture barrier, and an outer shell.

Consensus standards provide performance requirements and retirement criteria for turnout gear. The retirement criteria is based on visual inspections and a 10-year age cap with visual inspection being less effective for the moisture barrier and thermal liner layers. Recent data of turnout gear donated from fire departments demonstrates that turnout gear from 2 to 10 years old was unable to meet all performance requirements. Thus, under the current retirement criteria, turnout

gear that may not be protective against all hazards is being used by fire fighters.

Intuitively, the use conditions to which turnout gear would be exposed to when used by a large or medium metropolitan fire department would be very different than those of a smaller department. However, the absence of scientific data to link performance to use conditions (*e.g.*, number and type of washings, number of fire-related calls) provides a barrier to transitioning to an alternative approach to retirement.

This study will obtain a statistically meaningful sample of turnout gear from three fire departments. The use

conditions for the sampled turnout gear will be determined, and the gear will be subjected to established performance requirements. For each set of gear, its performance will be directly linked to its use condition history. This combined lab and field data will help determine if there is a relationship between turnout gear use conditions and the ability for turnout gear to effectively protect the user.

The use conditions for each set of sampled gear will be determined by:

(1) Reviewing fire department records, practices, and policies;

(2) surveying the fire fighters assigned to each set of sampled gear to obtain one-month of retrospective information about the use conditions to which it was likely exposed; and

(3) a 6-month prospective data collection where the fire fighters assigned to each set of sampled gear provide information about their shift-specific exposures.

The estimated annualized Burden Hours for this information collection is 1,050. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Individual Fire Fighter	Turnout Gear Safety Survey—Retrospective Exposures for past month.	100	1	30/60
	Turnout Gear Safety Survey—Prospective Exposures for six months.	100	60	10/60

Jeffrey M. Zirger,

Acting Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

[Docket No. FDA–2018–N–3305]

Allergenic Products Advisory Committee; Cancellation

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The meeting of the Allergenic Products Advisory Committee scheduled for November 7, 2018, is cancelled. This meeting was announced in the **Federal Register** of September 26, 2018.

FOR FURTHER INFORMATION CONTACT: Serina Hunter-Thomas, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 6338, Silver Spring, MD 20993–0002, 240–402–5771, serina.hunter-thomas@fda.hhs.gov, or FDA Advisory Committee Information Line, 1–800–741–8138 (301–443–0572 in the Washington, DC area), and follow the

prompts to the desired center or product area. Please call the Information Line for up-to-date information on this meeting.

Dated: October 16, 2018.

Leslie Kux,

Associate Commissioner for Policy.

Food and Drug Administration

[Docket No. FDA–2018–N–3728]

Agency Information Collection Activities; Proposed Collection; Comment Request; Collection of Conflict of Interest Information for Participation in Food and Drug Administration Non-Employee Fellowship and Traineeship Programs

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing an opportunity for public comment on the proposed collection of certain information by the Agency. Under the Paperwork Reduction Act of 1995 (PRA), Federal Agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and

to allow 60 days for public comment in response to the notice. This notice solicits comments on the “Collection of Conflict of Interest Information for Participation in FDA Non-Employee Fellowship and Traineeship Programs.”

DATES: Submit either electronic or written comments on the collection of information by December 21, 2018.

ADDRESSES: You may submit comments as follows. Please note that late, untimely filed comments will not be considered. Electronic comments must be submitted on or before December 21, 2018]. The <https://www.regulations.gov> electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of December 21, 2018. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are postmarked or the delivery service acceptance receipt is on or before that date.

Electronic Submissions

Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a
