Abstract: This notice identifies an information collection activity that the Office of Financial Management has submitted to OMB for approval for the Department and its bureaus to continue to collect information from proposed donors relative to their relationship(s) with the Department. The Department and its individual bureaus have gift acceptance authorities. The information will be gathered through the use of a form that collects information relevant to the acceptability of the proposed donation in conformance with the Department's donations policy. The form is completed and certified by the prospective donor then submitted to the Department or its bureau for review. SUPPLEMENTARY INFORMATION: Barrick Cortez, Inc. (BCI) is proposing to expand its existing Cortez Hills Project mining operations, which is located southeast of Battle Mountain in Eureka and Lander Counties, Nevada. There are 54,825 acres of public lands within the Plan of Operations boundary that are administered by the BLM Mount Lewis Field Office, and 3,268 acres of private lands controlled by BCI. BCI was previously authorized to disturb 16,700 acres within their Plan of Operations boundary.

The proposed mine expansion, named the Deep South Expansion Project (Proposed Project) would require a modification to the Plan of Operations to increase the plan boundary by 4,279 acres: From 58,093 acres to 62,372 acres. The proposed modification would result in approximately 3,798 acres of new disturbance inside the new proposed plan boundary, of which 2,768 acres are public lands.

BCI currently employs about 1,250 people from the northern Nevada towns of Elko, Battle Mountain, Winnemucca, Eureka, Carlin, and surrounding areas. If the Deep South Expansion Project is approved, the company expects to extend the mine life and employment opportunities for its workforce by another 12 years.

BCI's purpose for the Deep South Expansion Project is to continue to profitably recover gold and silver from reserves and resources on federal mining claims in the Project Area utilizing, to the extent practical, existing facilities at BCI's currently permitted operations within the Project Area. The project need is to meet the prevailing market demand for gold. The prevailing market demand is adjusted on a daily basis on commodity exchanges throughout the world. This adjustment results from buyers and sellers agreeing
