SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following

list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT** for the division listed at the end of the pesticide petition summary of interest.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

New Tolerances

1. *PP 7E8586*. EPA-HQ-OPP-2009-0493. Bayer CropScience LP, 2 T.W. Alexander Dr., Research Triangle Park, NC 27709-2014, requests to establish an import tolerance without U.S. registration in 40 CFR part 180.652 for residues of the insecticide ethiprole, and its metabolites and degradates, in or on coffee, green bean at 0.10 parts per million (ppm). The high performance liquid chromatography/mass spectrometry (HPLC/MS-MS) enforcement method, Method 01128, is acceptable for determination of residues of ethiprole and its sulfone metabolite RPA 097973 for data collection in plant commodities. The gas chromatography-electron capture detector (GC-ECD) method (Report No. B003572) is suitable

for determining residues of parent ethiprole and RPA in milk, eggs and tissues. The Food and Drug Administration (FDA) multiresidue method testing study for ethiprole is adequate and indicates that Pesticide Analytical Manual (PAM) multiresidue methods are not suitable for enforcing tolerances for residues of ethiprole.

2. *PP 8E8693*. EPA-HQ-OPP-2018-0636. OAT Agrio Co., Ltd. c/o Landis International, Inc., 3185 Madison Highway, P.O. Box 5126, Valdosta, GA 31603-5126, requests to establish an import tolerance without U.S. registration in 40 CFR part 180.677 for residues of the insecticide cyflumetofen in or on coffee bean at 0.08 ppm. The method performance was verified before and during sample analysis by determining the recoveries from control samples fortified with cyflumetofen/B-1 at 0.01/0.01 ppm (Limit of Quantitation (LOQ) and 0.1/0.1 ppm (10x LOQ) for green coffee bean, roasted coffee bean and instant coffee. The LOD (Limit of Detection) for cyflumetofen and B-1 was calculated as 0.0029 ppm and 0.0017 ppm for green coffee bean, 0.0025 ppm and 0.0017 ppm for roasted coffee bean, and 0.0019 ppm and 0.0011 ppm for instant coffee. *Contact:* RD.
