

ADDRESSES: DoubleTree Crystal City, 300 Army Navy Drive, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Dr. Ian Rowe, Acting Designated Federal Officer, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585; at (202) 586-7720 or email: Ian.Rowe@ee.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of Meeting: To develop advice and guidance that promotes research and development leading to the production of biobased fuels and biobased products.

Tentative Agenda: Agenda will include the following:

- Update on USDA Biomass R&D Activities
- Update on DOE Biomass R&D Activities
- Presentations from government and industry that provide insights on the regulatory barriers impacting bioenergy growth

Public Participation: In keeping with procedures, members of the public are welcome to observe the business of the Biomass Research and Development Technical Advisory Committee. To attend the meeting and/or to make oral statements regarding any of the items on the agenda, you must contact Dr. Ian Rowe at (202) 586-7720 or email: Ian.Rowe@ee.doe.gov at least 5 business days prior to the meeting. Members of the public will be heard in the order in which they sign up at the beginning of the meeting. Reasonable provision will be made to include the scheduled oral statements on the agenda. The Co-chairs of the Committee will make every effort to hear the views of all interested parties. If you would like to file a written statement with the Committee, you may do so either before or after the meeting. The Co-chairs will conduct the meeting to facilitate the orderly conduct of business.

Minutes: The summary of the meeting will be available for public review and copying at <http://biomassboard.gov/committee/meetings.html>.

Signed in Washington, DC, on October 19, 2018.

LaTanya Butler,

Deputy Committee Management Officer.

City Water and Light Plant of the City of Jonesboro; Notice of Filing

Take notice that on October 16, 2018, Midcontinent Independent System Operator, Inc. submitted a Compliance Refund Report for City Water and Light of the City of Jonesboro, pursuant to the Federal Energy Regulatory Commission's August 6, 2018 Order.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on November 6, 2018.

Dated: October 19, 2018.

Kimberly D. Bose,

Secretary.

[Docket No. CP18-46-000]

Notice of Schedule for Environmental Review of the Adelphia Gateway Project: Adelphia Gateway, LLC

On January 12, 2018, Adelphia Gateway, LLC (Adelphia) filed an application in Docket No. CP18-46-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities, as well as acquire and convert an existing oil pipeline (southern segment) and an existing dual-phase oil and natural gas pipeline (northern segment) to natural gas only. On August 31, 2018, Adelphia filed an amendment to the application proposing to increase its proposed capacity on the northern segment, but would not result in any changes to the proposed facilities. The proposed project is located in both Pennsylvania and Delaware and is known as the Adelphia Gateway Project (Project). As amended, the Project would provide about 250 and 350 million standard cubic feet of natural gas per day on the existing 18-inch-diameter and 20-inch-diameter portions of the northern segment, respectively. The Project would also provide 250 million standard cubic feet of natural gas per day on the existing 18-inch-diameter southern segment to the greater Philadelphia industrial region with potential to serve additional markets in the northeast.

On January 23, 2018, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—January 4, 2019
90-day Federal Authorization Decision

Deadline—April 4, 2019

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Adelphia Gateway proposes to acquire and convert the above referenced northern and southern segments and four existing meter stations to natural gas only, and construct and operate about 4.7 miles of new 16-inch-diameter natural gas pipeline, five meter stations with eight interconnects, seven blowdown assemblies, two mainline valves, and appurtenant facilities in Delaware, Bucks, Chester, Montgomery, and Northampton Counties, Pennsylvania, and New Castle County, Delaware. Additionally, Adelphia proposes to construct two new 5,625 horsepower compressor stations in Delaware and Bucks Counties, Pennsylvania.

Background

On May 1, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the proposed Adelphia Gateway Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI and during Project scoping, the Commission received comments from the U.S. Environmental Protection Agency, Pennsylvania Department of Transportation, local and state governments, non-governmental organizations, and more than 360 comment letters from residents. The primary issues raised by the commenters relate to safety and health concerns for residents and nearby communities, as well as concerns related to environmental impacts associated with the repurposing of the existing system to transport natural gas and construction of new natural gas infrastructure. Project stakeholders also generally expressed Project concerns about the following:

- Noise, safety, air quality, and visual impacts of the proposed compressor stations;
- effects on local communities, nearby properties, and property rights and values;
- direct harm to local communities, cultural and historical interests, and open space;
- water quality impacts, including erosion and stormwater runoff, and impacts on drinking water supplies;
- contaminated groundwater and soil;
- traffic impacts;
- impacts on tourism; and
- climate change.

All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (i.e., CP18-46), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: October 19, 2018.

Kimberly D. Bose,
Secretary.

[Project No. 14882-000]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications: Tenn-Tom Hydro, LLC

On July 5, 2018, Tenn-Tom Hydro, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Stennis Hydropower Project (Stennis Project or project) to be located at the U.S. Army Corps of Engineers' (Corps) John C. Stennis Lock and Dam on the Tennessee-Tombigbee Waterway, in Lowndes County, Mississippi. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application

during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A 150-foot-long, 25-foot-high trash screen; (2) a 180-foot-long, 80-foot-wide intake channel, at the east abutment of the Corps' existing spillway; (3) four 10-foot-diameter, 60-foot-long steel siphon penstocks; (4) a 100-foot-long, 50-foot-wide powerhouse containing four generating units with a total combined capacity of 8.0 megawatts; (5) a 120-foot-long, 100-foot-wide tailrace; and (6) a 0.6-mile-long transmission line. The proposed project would have an estimated average annual generation of 52,000 megawatt-hours, and operate run-of-river utilizing surplus water from the John C. Stennis Lock & Dam, as directed by the Corps.

Applicant Contact: Mr. Jeremy Wells, Wells Engineering, LLC, 101 Yearwood Drive, Macon, Georgia 31206; phone: (478) 238-3054.

FERC Contact: Michael Spencer, (202) 502-6093, michael.spencer@ferc.gov.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P-14882-000.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14882) in the docket number field to access the document. For assistance, contact FERC Online Support.
